Subject: Label Notification(s) for Pesticide Registration Notice 98-10

Dear Dr. Fletcher:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated October 10, 2012 for the following product(s):

YT-1601 Dog Tag

EPA Registration Number 39039-14

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 98-10 and finds that the label change(s) requested falls within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records.

If you have any questions, please contact Linda A. DeLuise at 703-305-5428.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard J. Gebken".

Richard J. Gebken

Notification of text added for marketing purposes: "It's easy! No mess, no stress. Just clip'n go."

We feel this notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

EPA REG. NO. 39039-14**

Y-Tex®

YT-1601 Dog Tag

The YT-1601 Dog Tag is a collar medallion that contains a powerful synergized pyrethroid insecticide that kills adult fleas and all blood-feeding stages of ticks, yet exhibits very low toxicity to animals and humans.

READ ENTIRE LABEL BEFORE EACH USE.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Alternate wording used for 4 gram medallion:

Do not use on puppies less than 6 months of age. For dogs weighing 14 - 29 pounds, use one 4 gram medallion. This 4 gram product may only be used on dogs weighing between 14 and 29 pounds. May not be used on dogs weighing less than 14 pounds or greater than 29 pounds. This product takes a few days to show maximum efficacy.

Alternate wording used for 6 gram medallion:

Do not use on puppies less than 6 months of age. For dogs weighing 30 - 55 pounds, use one 6 gram medallion. This 6 gram product may only be used on dogs weighing 30 to 55 pounds. May not be used on dogs weighing less than 30 pounds or greater than 55 pounds. This product takes a few days to show maximum efficacy.

Alternate wording used for 8 gram medallion:

Do not use on puppies less than 6 months of age. For dogs weighing 56 pounds or greater, use one 8 gram medallion. This 8 gram product may only be used on dogs weighing 56 pounds or greater. May not be used on dogs weighing 55 pounds or less. This product takes a few days to show maximum efficacy.

Remove medallion from package and attach to "D-ring" on existing collar as illustrated in Steps 1 through 3.

STEP 1 Open clasp and slide both halves around "D" ring on collar.

STEP 2 Close clasp and press together until it clicks into place.

STEP 3 When properly closed both halves should line up over each other.

The completed medallion must swing freely from the "D-ring" on the collar. Consult a veterinarian before using this product on debilitated, aged or medicated animals. If used on pregnant or nursing dogs, do not replace medallion until puppies are at least 6 weeks old.

Sensitivity may occur after using ANY pesticide product for pets. Any pesticidal collar or collar attachment may irritate some animals. If irritation continues, remove the product from the animal. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. As the YT-1601 Dog Tag is depleted of insecticide, ticks and fleas may be again noticed on your pet, indicating it is time to replace the attachment or replace the attachment after 4 months, whichever comes first. DO NOT USE ON CATS. The safety of this product has not been determined on cats.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool place in original container, away from direct sunlight.

PESTICIDE DISPOSAL: Wrap used product in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling, if available.

Y-TEX CORPORATION • 1825 BIG HORN AVENUE • CODY, WYOMING 82414

(OPTIONAL ADDITIONAL WORDING)

For control of fleas and ticks, it is necessary to treat not only the pet but also its environment. Treat your home, both indoors and outdoors, with a residual insecticide and/or Insect Growth Regulator (IGR) approved and labeled for such use, to prevent re-infestation of the home and yard.
