pregnant or nursing dogs, do not replace medallion until puppies are at least 6 weeks old. Sensitivity may occur after using ANY pesticide product for pets. Any pesticidal collar or collar attachment may irritate some animals. If irritation continues, remove the product from the animal. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. As the YT-1601 Dog Tag is depleted of insecticide, ticks and fleas may be again noticed on your pet, indicating it is time to replace the attachment or replace the attachment after 4 months, whichever comes first. **DO NOT USE ON CATS.** The safety of this product has not been determined on cats.
