re: Y-TEX XP 820 Insecticide Cattle Ear Tag, EPA Reg. # 39039-17
label amendment submitted 6/15/2009 (D# 415342)
accepted

Dear Mr. Kellerby:

The revised labeling reference to above, submitted in connection with the registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is **ACCEPTABLE**. This label amendment adds text describing the physical characteristics of the tag.

Submit two (2) copies of your final printed labeling incorporating the above changes prior to releasing your product for shipment. If the above provisions are not complied with the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A copy of the label stamped "accepted" is enclosed for your records.

Sincerely yours,

A handwritten signature in black ink, appearing to be "TH" or similar initials.

Y-TEX[®] XP 820[™] INSECTICIDE CATTLE EAR TAGS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reformulation or repackaging of this product is prohibited. This labeling must be in the possession of the user at the time of pesticide application.

Apply tags as directed below for Horn Flies and ear ticks:

- Horn Flies: 1 tag/animal for up to 3 months control
2 tags/animal for up to 5 months control (1 tag on each ear)
For breeds with large ears, apply to back of ear for optimum control of horn flies.
- Gulf Coast Ticks: 2 tags/animal for up to 4 months control (1 tag on each ear)
- Spinose Ear Ticks: 2 tags/animal (1 tag on the front of each ear)

Apply tags as directed below for the listed pests:

- American Dog Ticks: 2 tags/animal (1 tag per ear) to aid in control for up to 3 months
- Cattle Fever Ticks (*Boophilus* species): 2 tags/animal (1 tag per ear) to aid in control for 2 to 3 months
- Lone Star Ticks: 2 tags/animal (1 tag per ear) to aid in control for 2 months
- Face Flies (*Musca autumnalis*):
2 tags/animal (1 tag on the front of each ear) to reduce Face Flies

Apply as shown with a Y-TEX 2-piece tag applicator (UltraTagger[®] or UltraTagger^{®plus}). Apply when flies become a problem in the spring. Reapply as necessary up to two treatments per year. All animals in the herd should be tagged to avoid dilution of the treatment. To minimize development of insecticide resistance in horn flies, remove used tags at the end of the season and follow the recommended tag rotation program. Remove tags before slaughter. Do not tag lactating dairy cows.

STEP 1

Seat male button firmly on pin, press down and give a slight twist.

STEP 2

Place female tag firmly under clip. Collar on tag must be pointing away from pin.

STEP 3

Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE:

Store in cool, dark place away from sunlight in original container. Opened bags containing ear tags should be resealed for storage.

PESTICIDE DISPOSAL:

Offer for recycling (if available). Otherwise, securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER DISPOSAL:

Nonrefillable container (box and bag). Do not reuse or refill the box or bag. Offer box and bag for recycling (if available) or discard in trash.

Long taper and rounded edges for durability

- Guaranteed against loss due to tag or button failure*.
- Snap-Lok[™] collar for guaranteed retention* (US Pat. No. 4,581,834).
- No withdrawal time required.

GUARANTEE

*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed after being properly applied, to remain in the animal's ear for a five (5) month period due to tag breakage or separation from button.

Ribbed design for season-long durability

Large surface area for insecticide effectiveness

Snap-Lok[™] collar for guaranteed retention* (U.S. Patent No. 4,581,834)
