MAR 13 2014

Subject: Label Amendment – Minor Changes in Directions for Use  
Product Name: PYthon Insecticide Cattle Strip  
EPA Registration Number: 39039-21  
Submission Date: March 10, 2014  
Decision Number: 488501

Dear Dr. Fletcher:

The label amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended is **acceptable**.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Products released for shipment after 18 months from the date on this notice or the next printing of the master label whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA. Amended labeling will supersede all previously accepted labels. Your release for shipment of this product constitutes acceptance of these conditions. As required by 40 CFR 156.10(6), you must submit one copy of the final printed label before the product is released for shipment. If you have any questions please contact Carlyn Petrella by phone at (703) 347-0439 or via email at "petrella.carlyn@epa.gov".

(Insecticide Add-on for ID Tags)

For use on Beef Cattle and Dairy Cattle (including Lactating) and Calves to Control Horn Flies, Face Flies, Lice, Gulf Coast Ticks, Spinose Ear Ticks, and Aid in Control of Stable Flies, Black Flies, House Flies and small Horse Flies.

- Synergized pyrethroid formula for maximum effectiveness against horn flies.
- Also controls face flies, lice, ear ticks, and aids in control of other biting flies.
  - Can be used on lactating dairy cows.
  - No withdrawal time required.
  - Guaranteed against loss due to strip breakage.\*
- For use only on identification (ID) tags that the application site has completely healed.
  - Preferably use with ID tags that were applied the previous season or earlier.

Keep Out of Reach of Children

# Y-TEX® PYthon® Insecticide Cattle Strip

**Alternate Brand Names:**

- PYthon® Insecticide Power Strip
- PYthon® Power Strip
- PYthon® All American® Strip
- PYthon® All American® Power Strip
- PYthon® Dairy Cattle Strip

(Insecticide Add-on for ID Tags)

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

**Summer Season:** For control of horn flies for 3-4 months and aid in control of face flies, attach one strip over the button of any two piece identification (ID) tag in late spring. To control horn flies, face flies, lice, Gulf Coast ticks and Spinose ear ticks for 4-5 months, and to aid in control of stable flies, black flies, house flies and small horse flies, apply two strips per animal (1 to each ear) when flies appear in the spring. Apply 2 strips to large bulls for optimum horn fly protection.

**Winter Season:** For season-long lice control, apply strips in late fall. To control biting lice, shortnosed sucking lice and aid in control of other sucking lice, apply 1 strip per calf or 2 strips per mature animal (1 to each ear).

For use only on ID tags that the application site has completely healed. Preferably use with ID tags that were applied the previous season or earlier. Apply as shown on front panel over the button of any existing 2 piece ID tag, such as the Y-TEX All American® 2 piece ID tag system, using 1, 2, 3, or 4 star tags.

Apply as shown when attaching to male/female combination ID tags or one piece ID tags by folding tag body and placing tag through the "key hole" in strip and sliding the strip up and over the shaft of the tag system. It is not recommended to place the strip on the back of a one piece ID tag.

All animals in the herd should be treated. To minimize development of insecticide resistance, remove used strips at the end of fly and lice seasons, and follow Y-TEX's recommended insecticide rotation program.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a cool place in original container, away from direct sunlight. Opened bags containing ear strips should be resealed for storage.

**PESTICIDE DISPOSAL:** Remove strips before slaughter. Securely wrap used strips in a plastic bag or several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse bag. Discard bag in trash, or offer for recycling if available.

<b>FIRST AID</b>	
This product contains zetacypermethrin, a pyrethroid insecticide, and piperonyl butoxide, technical, a mixed-function oxidase inhibitor.	
<b>If on skin or clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advise.</li> </ul>
<b>If swallowed</b>	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to by a poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>HOT LINE NUMBER</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information.	

**KEEP OUT OF REACH OF CHILDREN  
PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

Harmful if absorbed through skin. Harmful if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Wear long-sleeved shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS**

This pesticide is **extremely** toxic to fish and aquatic invertebrates. Do not contaminate water by disposal of used strips. Use this product only as specified on this label.

**USER SAFETY RECOMMENDATIONS:**

- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**NOTICE OF WARRANTY**

To the extent consistent with applicable law, Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of strips only.

**GUARANTEE**

\*This guarantee is a limited guarantee, limited to the replacement of strips only, if the strips failed after being properly applied, to remain on the animal's ear for a five (5) month period due to strip breakage.

**EPA EST. NO. 39039-WY-01      EPA REG. NO. 39039-21**  
**Patent Pending**

6/6

Optional wording:

[The insecticide strip can only be attached to an existing ID tag provided the ear has completely healed from the ID tag application.]

Wording removed from previous label version:

The strip can be applied to an existing tag or it can be applied with the ID tag by simply placing the strip over the shaft of the button prior to application to the animal. If the animal does not have 2 ID tags with buttons, you can apply the Y-TEX round and button combination into the ear opposite the ID tag, both of which can be used in subsequent years as an attachment site for replacement Y-TEX Insecticide Strips.
