OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

September 25, 2023

Kathy Skates Regulatory Affairs Manager Y-TEX Corporation 1825 Big Horn Avenue Cody, WY 82414

Subject: Label Amendment – Added directions for Quad size feeder and two new graphics

Product Name: YT-1604 Insecticide Mineral Feeder Strip

EPA Registration Number: 39039-34

Application Date: 08/18/2022 Decision Number: 588104

Dear Ms. Skates:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2 EPA Reg. No. 39039-34 Decision No. 588104

with FIFRA section 6. If you have any questions, you may contact Robert Mitchell at 202-566-2842 or via email at mitchell.robert@epa.gov.

Sincerely,

Elizabeth Fertich Product Manager 4 Invertebrate-Vertebrate Branch 1 Registration Division

PATENTS PENDING]

[Optional wording for AmeriAg feeders]

[ASSEMBLY INSTRUCTIONS

Step 1 - Using a 1/8" bit, drill 10 holes for kick out rings in the edge of the upper arch of the mineral feeder opening. Make a mark at the center edge of the top arch of the opening (12 O'clock). Starting 1 inch from the right of the center mark drill 5 holes 1- 3/4 inches apart in the edge of the arch opening. Repeat 5 holes for the left hand side of the center mark. The holes need to be approximately 1/8 to 1/4 of an inch from the edge of the feeder opening.

Step 2 - Attach the kick out rings to the feeder by threading them through the 10 holes previously drilled. Thread the kick out rings in the holes starting with the edge of the ring that sticks out.

Step 3 - Thread the strip via hole onto the kick out rings that are attached to the feeder. This is done the same way that you threaded the kick out ring into the feeder. Starting with the section of the ring that sticks out. Feeder is now ready for use. Repeat 3 times for quad feeder.]

FIRST AID	
This product contains zetacypermethrin, a pyrethroid insecticide, and piperonyl butoxide, technical, a	
mixed-function oxidase inhibitor.	
If	•Call a poison control center or doctor immediately for treatment advice.
swallowed	•Have person sip a glass of water if able to swallow.

	•Do not give anything by mouth to an unconscious person.
If on skin	Take off contaminated clothing.
or clothing	• Rinse skin immediately with plenty of water for 15-20 minutes.
	Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor or going for	
treatment. You may also contact 1-800-255-3924 for emergency medical treatment information	

EPA Reg. No. 39039-34

PRECAUTIONARY STATEMENTS KEEP OUT OF REACH OF CHILDREN

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes, and waterproof or chemical-resistant gloves when applying. Remove and wash contaminated clothing before reuse.

USER SAFETY RECOMMENDATIONS:

- User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- User should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is **extremely** toxic to fish and aquatic invertebrates. Do not contaminate water by disposal of used strips. Use this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

Resistance-management Recommendations. For resistance management, YT-1604 Insecticide Mineral Feeder Strip contains a Group 3A/Zetacypermethrin insecticide. Any insect population may contain individuals naturally resistant to YT-1604 Insecticide Mineral Feeder Strip and other Group 3A insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly in the same herds. Appropriate resistance management strategies should be followed. Monitor after application for unexpected target pest survival. If the level of survival suggests the presence of resistance, consult with your local university specialist or certified pest control advisor.

For Outdoor Use Only

Place mineral feeders in use 14 days prior to placement of insecticide strips to get cattle used to the feeders and using them. Apply 10 strips per single feeder (1 feeder per 10-30 head). Apply 40 strips per quad feeder (1 feeder per 40-120 head). Keep feeders well supplied with minerals and place close to water to encourage daily use. When strips become ineffective after 3 months, remove or replace.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool place in original container, away from direct sunlight. Opened bags containing strips should be resealed for storage.

PESTICIDE DISPOSAL: No withdrawal time required before slaughter. Securely wrap used strips in a plastic bag or several layers of newspaper and discard in trash.

CONTAINER HANDLING: Non- refillable container. Do not reuse bag. Discard bag in trash or offer for recycling if available.

NOTICE OF WARRANTY

To the extent consistent with applicable law, Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of strips only.
