

AL-200

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 20.0 %

INERT INGREDIENTS 80.0 %

This product contains 1.81 lb. of active ingredient per gallon and weighs 9.05 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 ml) of ipecac syrup or 1 teaspoonful (5 ml) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other non-alcoholic liquid. Never induce vomiting or give anything by mouth to an unconscious patient. Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a label (EPA permit) for groundwater protection. Regional Office of the Environmental Protection Agency.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

AL-200 is used in industrial and/or commercial recirculating cooling tower systems and industrial air-washing systems to control microbiological slime. Prior to the use of AL-200 in industrial and/or commercial recirculating cooling tower systems, systems should be cleaned to remove algal growth, microbiological slime, and other deposits. Then make an initial slug addition of 5.7 to 8.6 fl. oz. of AL-200 per 1000 gal. of water to provide 30 to 45 ppm of AL-200 based on total weight of water in the system. Repeat initial dosage until control is evident. Make subsequent slug addition of 2.9 to 8.6 fl. oz. of AL-200 per 1000 gal. of water (15 to 45 ppm AL-200) every 2 to 5 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of recirculating cooling tower systems.

AL-200 is used in industrial air-washing systems which maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 13.5 to 17.2 fl. oz. of AL-200 per 1000 gal. of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 10.0 to 17.2 fl. oz. of AL-200 per 1000 gallons of water should be employed every 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made in the sump or the water collection trays of the airwash system.

ACCEPTED

STORAGE AND DISPOSAL

PROHIBITIONS: Do not mix with water. Do not feed by storage or disposal. Open dumping is prohibited. **PESTICIDE DISPOSAL:** See label for instructions on disposal that cannot be used or chemicals reprocessed. Do not mix with other pesticides or fertilizers. Store in a safe place away from water supply.

CONTAINER DISPOSAL: METALS: Containers may be recycled or used for other purposes if they are approved for such use. If not approved, containers should be disposed of in accordance with local, state, or federal regulations. **PLASTICS:** Containers may be recycled or used for other purposes if they are approved for such use. If not approved, containers should be disposed of in accordance with local, state, or federal regulations.
