DANGER

STATEMENT OF PRACTICAL TREATMENT

- IF IN EYES** Flush with plenty of water for at least 15 minutes. Get medical attention.
- IF ON SKIN** Wash with plenty of water. Remove contaminated clothing.
- IF SWALLOWED** Do not induce vomiting. Drink plenty of water. Get medical attention.

NOTE TO PHYSICIAN

See side panel for additional precautionary statements.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard nonporous surfaces in homes, schools, restaurants, restrooms and other public areas, mop or brush with a fresh solution containing 3 1/2 ounces of Formula 3500-3 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection. (Follow directions for cleaning.) Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality. Do not reuse used solution.

To disinfect hard nonporous surfaces in Locker Rooms, Shower stalls, walkways around beds and other areas against pathogenic Fungi, mop or brush with a fresh solution containing 2 ounces per gallon of water so as to maintain thoroughly wetted surface for ten minutes. This solution will destroy *Trichophyton interdigitale*, a causative of Athlete's Foot. All soiled surfaces must be pre-cleaned prior to disinfection. (Follow directions for cleaning.) Do not reuse used solutions.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard nonporous surfaces in hospitals and nursing homes, mop or brush with a fresh solution containing 5 1/2 ounces of Formula 3500-3 per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection. (Follow directions for cleaning.) Those surfaces that are heavily soiled with blood, feces, pus, or exudates should be thoroughly scrubbed with a detergent

containing 5.6 ounces of Formula 3500-3 per gallon of water, and then rinsed with a fresh solution containing 5.6 ounces of Formula 3500-3 per gallon of water before disinfection. Do not reuse used solution. This product has not been tested for effectiveness against *Mycobacterium Tuberculosis*, and must not be used again when Tuberculocidal activity is intended by the user.

DEODORIZATION

Prior to deodorization of bathroom areas, garbage pails, diaper pails, food storage areas, kennel areas, and other obnoxious odors that may develop, remove all garbage, refuse, food and/or animals. Pre-clean surfaces using pressured water where possible before deodorization. To deodorize, mop or brush surfaces thoroughly with solution containing 5 ounces of Formula 3500-3 per gallon of water.

GENERAL INFORMATION

Formula 3500-3 is an effective anti-bacterial cleaner designed for use in household, industrial and institutional cleaning when used as directed.

Formula 3500-3 will disinfect hard and nonporous surfaces such as floors, walls, countertops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, diaper pails, food storage areas, animal quarters and other areas where obnoxious odors may develop. This product may be used to control pathogenic fungi and is a general purpose anti-bacterial detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, and other places where efficient cleaning and antimicrobial action is desired.
