

Net Weight 50 Pounds

PREMIUM
SWINE PREMIX NO. 5S (ROL)
Contains Rabon[®] Oral Larvicide

To prevent the development of house flies in the manure of treated Swine.

ACTIVE INGREDIENT	BY WEIGHT
2-Chloro-1-(2, 4, 5-trichlorophenyl) vinyl dimethyl phosphate [®] . . .	2.01%
INERT INGREDIENTS [®]	97.99%
TOTAL	100.00%

[®]Rabon Insecticide. Contains 9.1 grams Rabon per pound.
[®]Refers only to ingredients which are not larvicidal.
Rabon is a registered trademark of Shell Oil Company.

GUARANTEED ANALYSIS

Magnesium (Mg) 10.80%; Zinc (Zn) 3.20%; Iron (Fe) 3.20%; Manganese (Mn) 1.60%; Copper (Cu) 0.40%; Iodine (I) 0.04%; Cobalt (Co) 0.016%; Selenium (Se) 0.004%; Vitamin A, Min. 1,000,000 USP Units/lb.; Vitamin D3, Min. 320,000 USP Units/lb.; Vitamin E, Min. 2,000 Int Units/lb.; Vitamin K, Min. 400 Mgs./lb.; Riboflavin, Min. 800 Mgs./lb.; d-Pantothenic Acid, Min. 3,200 Mgs./lb.; Niacin Min. 6,400 Mgs./lb.; Vitamin B12, Min. 5 Mgs./lb.; Choline Chloride, Min. 20,000 Mgs./lb.

FEED INGREDIENTS

Vitamin A Acetate in Gelatin, Vitamin D3 Supplement, Vitamin E Supplement, Riboflavin Supplement, d-Calcium Pantothenate, Niacin Supplement, Vitamin B12 Supplement, Menadione Dimethylpyrimidinol Bisulfite (Source of Vitamin K), Choline Chloride, Magnesium Oxide, Zinc Oxide, Ferrous Sulfate, Manganous Oxide, Copper Oxide, Ethylenediamine Dihydriodide, Cobalt Carbonate, Sodium Selenite, Calcium Carbonate and Rice Hulls.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION

Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning equipment or disposal of wastes.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a dry place.

PESTICIDE DISPOSAL: Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Start feeding RABON larvicidal feeds early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity.

When fed, this product passes through the digestive system into the animal's manure where it kills fly larvae on contact shortly after fly eggs hatch.

It prevents the development of house flies in treated swine, but it is not effective against existing adult flies.

In some cases, supplemental fly control measures may be needed in and around barns to control adult house flies which can breed not only in manure but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, this product should be used in conjunction with other good management and sanitation practices.

This product will mix uniformly in feeds when standard mixing procedures are followed. Thus, usual problems that are common to all feed preparation and which cause stratification, such as excessive free-fall or excessive handling are to be avoided. It is recommended that appropriate preblending techniques be employed to assure adequate distribution throughout the feed mix.

Optimum performance can be assured only if this product is dispersed uniformly with the feedstuff at the recommended level. Common feed mixing equipment (i.e., vertical mixer, horizontal blenders,) may be used to prepare formulated feeds.

Feeds prepared with this product should not be pelleted, nor be mixed with feeds containing predominantly pellets. Further, this product should not be mixed in liquid feed supplements.

MIXING AND FEEDING DIRECTIONS

SOWS & BREEDING GILTS: This product contains Rabon Oral Larvicide and the mineral Selenium. Mix 5 lbs. of this premix per ton of complete feed. The resulting feed will then contain 22.7 mg. of Rabon per pound and 90.8 mgs. of Selenium per ton (Selenium equivalent to 0.1 ppm). Feed free choice.

CAUTION: Follow Label Directions. The addition of feed of higher levels of this premix containing Selenium is not permitted. Feed to swine only.

USE AS THE SOLE SOURCE OF ADDED SELENIUM
