Wepak Pine Disinfectant reduces the surface tension of water, improving its wettability. Microbes are capable of mass reproduction in sub-visible pores, scratches, and cracks of surfaces. The excellent wettability of Wepak Pine Disinfectant improves the penetration of the use solution into areas that otherwise might not be reached.

Wepak Pine Disinfectant is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin. Has a pleasant pine odor.

Wepak Pine Disinfectant mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Corrosive.**

Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear chemical goggles, protective clothing, and rubber gloves. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public water unless in accordance with an NPDES Permit. Do not contaminate water by cleaning of equipment or by disposing of wastes.

STORAGE AND DISPOSAL: Store only in tightly closed, original container in a secure area inaccessible to children. Do not reuse empty container.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION INFORMATION

Select the proper dilution of Wepak Pine Disinfectant for your use from the directions below. Apply the use solution with a clean mop, sponge, cloth, squeegee, mechanical scrubber or mechanical spraying device.

Prepare fresh use solutions daily. Do not reuse solution. Discard solutions when they become visibly soiled for disinfection, thoroughly wet the surfaces to be treated. Surfaces must remain moist for at least 10 minutes to assure proper germicidal action.

**ONLY FOR SALE TO
USE BY SERVICE
AND STORAGE PERSONS.**

PINE DISINFECTANT

***KILLS PSEUDOMONAS, SALMONELLA AND STAPHYLOCOCCUS.
VIRUCIDAL

ACTIVE INGREDIENTS:

Pine Oil	3.95%
Alkyl (C ₁₄ , 58%; C ₁₆ , 28%; C ₁₂ , 14%) dimethyl benzyl ammonium chloride	1.97%
INERT INGREDIENTS	94.08%
TOTAL INGREDIENTS	100.00%

*This disinfectant is effective at 6 oz./gal against *Pseudomonas aeruginosa* PRD-10, *Salmonella choleraesuis* ATCC 10708, and *Staphylococcus aureus* ATCC 6538 when tested by the A.O.A.C. Use Dilution Test Method for pre-cleaned, hard non-porous, inanimate environmental surfaces.

**This disinfectant is also an effective virucide at 6 oz./gal for Influenza virus, Type A, Brazil on inanimate environmental surfaces.

This product may be used for cleaning and deodorizing, one step cleaning, and disinfection, or disinfectant of pre-cleaned, non-porous, inanimate hard surfaces.

**KEEP OUT OF REACH
OF CHILDREN
DANGER**

(See additional precautions on side panel)

FIRST AID

Have the product container or label with you when you call a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably, mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

This product may be used for cleaning and disinfecting hard non-porous, inanimate environmental surfaces (glass, metal, glazed porcelain, linoleum, tile, smooth leather, vinyl, enameled and finished wood surfaces) on walls, floor, appliances and furnishings.

CLEANING

To Clean and Deodorize or to Pre-clean Prior to Disinfection. For light soil, apply 3 oz. per gallon of water solution to hard nonporous surfaces with cloth, mop, brush, mechanical sprayer, or sponge. Allow surfaces to air dry. For heavy soil, apply 5 oz. per gallon of water.

DISINFECTING

For use in hospitals, nursing homes, restaurants, restrooms, industrial areas: Apply 7 1/2 oz. per gallon of water use solution to hard non porous surfaces with cloth, mop, brush, mechanical sprayer, or sponge. Thoroughly wet surfaces. Surfaces must remain wet for a 10 minutes to assure proper germicidal action. For sprayer applications: Spray 6-8" from the surface, with cloth, mop, or sponge. Do not breath spray mist.

For heavily soiled areas, pre-clean as described above. Fresh solution must be prepared daily or more often when solution becomes diluted or soiled.

Rinse all surfaces that come in contact with food such as counters and tables with potable water before reuse. Do not use on utensils, glasses, or dishes as a disinfectant.

This product is not for use on medical devices and equipment.

Toilet Bowl/Urinal Disinfectant: Empty toilet bowl or urinal. Apply 5 oz. per gallon of water use solution to the bowl. Thoroughly brush or swab over exposed surfaces and under rim with cloth, mop, or brush. Allow to stand for 10 minutes and flush.

Food and Meat Processing Plants: Before use in food processing areas, all food products and packaging materials must be removed from the room or carefully protected. Follow General disinfection directions.

For mildew control: Follow directions for hospital disinfection. Repeat treatment every seven days, or when new growth appears.

Wepak Pine Disinfectant may be used through automatic floor scrubbing equipment.

Wepak Pine Disinfectant must not be used on food contact surfaces.
