EPA REGISTRATION NO. 39047-19	DATE OF ISSUANCE MAY 27 1987						
TERM OF ISSUANCE							
NAME OF PESTICIDE PRODUCT KML-10							
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <div style="border: 1px solid black; height: 100px; margin: 10px 0;"></div> <p style="margin: 0;">KML, Inc. 1000 St. Mary's Avenue St. Louis, MO 63103</p>							
<p>NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>							
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>1. The registrant is required to submit to the Agency, within 90 days of the date of registration, a copy of the label for the product registered. The label must be submitted in accordance with the requirements of 40 CFR 155.101 and 155.102. The label must be submitted in the form of a copy of the label as it will appear on the product, including all required information, and must be submitted in the form of a copy of the label as it will appear on the product, including all required information, and must be submitted in the form of a copy of the label as it will appear on the product, including all required information.</p> <p>2. The registrant is required to submit to the Agency, within 90 days of the date of registration, a copy of the label for the product registered. The label must be submitted in accordance with the requirements of 40 CFR 155.101 and 155.102. The label must be submitted in the form of a copy of the label as it will appear on the product, including all required information, and must be submitted in the form of a copy of the label as it will appear on the product, including all required information.</p> <p>3. The registrant is required to submit to the Agency, within 90 days of the date of registration, a copy of the label for the product registered. The label must be submitted in accordance with the requirements of 40 CFR 155.101 and 155.102. The label must be submitted in the form of a copy of the label as it will appear on the product, including all required information, and must be submitted in the form of a copy of the label as it will appear on the product, including all required information.</p> <p>If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.</p> <p>A true and correct copy of the label is enclosed for your records.</p> <div style="text-align: center; margin-top: 20px;">  John H. KML 10

INDUSTRIAL MICROBICIDE

ACTIVE INGREDIENTS:

Methylene bis(thiocyanate)

5%

2-(Thiocyanomethylthio)benzothiazole

5%

INERT INGREDIENTS

90%

This product weighs 8.26 pounds per gallon.

KEEP OUT OF REACH OF CHILDREN DANGER

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, causes irreversible eye damage and causes skin damage. Harmful or fatal if swallowed or absorbed through the skin. This product is a potential skin sensitizer. Workmen handling this product or treated material should wear impervious gloves, goggles or face shield, and protective clothing. All protective clothing, work shoes or boots, and equipment must be left at the work site at the end of the day. Eating, drinking, or smoking during use of this product is prohibited.

FIRST AID: *In case of skin contact*, wash promptly and thoroughly with soap and water and finally with glycerin. *If product gets in the eyes*, flush immediately with copious amounts of clean, cool water for 15 to 30 minutes. Get medical attention immediately. *If product is swallowed*, call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. *Do not induce vomiting or give anything by mouth to an unconscious person.*

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply directly to water or wetlands. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: Do not expose to extreme temperatures.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

COOLING TOWERS: KML 10

wool against soft or surface rot and internal or dry rot. Containing 1.0 to 1.4% KML 10

faces. The amount applied should provide 1.2 to 1.6 lb KML 10 to the recirculating water.

well. The dosage should provide 2.5 lb of KML 10 per 1000 ft² of wood surface. Soft or surface rot can be controlled by repeated every four months.

COOLING WATER: KML 10

and fungi in industrial recirculating cooling water systems should be cleaned thoroughly to remove old algal growth. The system should then be drained, flushed, refilled with water. KML 10 per 1000

of 0.4 to 2.4 fl oz per 1000 gal should be made every 1 to 2 months to control the severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal growth in drilling of wells, KML 10

concentrations of 0.1 to 0.5% based on the total wet weight of the fluid.

PETROLEUM SECONDARY RECOVERY: KML 10

control sulfate-reducing bacteria, slime-forming bacteria, and other oil-field problems in micellar floods, water-disposal systems, and other oil-field applications. KML 10 per 1000

made continuously or intermittently by means of a metering pump after injection pumps and injection well headers. Continue to add KML 10

fouled, add 7.8 to 26.0 fl oz KML 10 to the system until the desired degree of control is achieved. KML 10 per 1000 gal

control. Intermittent or Slug Method: When system is fouled, add 7.8 to 26.0 fl oz KML 10

and 1 to 4 times per week, or as needed to maintain control of the system.

CRUDE AND REFINED OILS: KML 10

inhibitive for the control of bacteria and fungi that cause corrosion during storage. It should be added to the oil as it is being pumped into storage tank at the rate of 1.2 to 12.0 fl oz KML 10

Addition should be made batchwise where mixing occurs.
