PREPARATION AND DISPOSAL

PREPARATION: Do not contaminate water, food, or food by contact with this product. Open dumping is prohibited. If empty container, do not reuse empty container.

DISPOSAL: Pesticide or rinsate that cannot be used or recycled should be disposed of in a land approved for pesticides or buried in a safe place with water supplies. Triple rinse (or equivalent) all containers and for metal containers, offer for recycling or recycling (for plastic containers dispose in an incinerator), or dispose in landfill approved for pesticide containers or bury in a safe place. Consult federal, state or local authorities for approved alternative procedures.

WARRANTY: Seller warrants that the product conforms to the chemical description and is reasonably fit for the purposes stated on the label when used in accordance with the directions under normal conditions of use, but neither seller nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of the product in any other than as directed by label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

GENERAL INFORMATION

Team 323 Disinfectant is an effective anti-bacterial disinfectant designed for use in household, industrial and institutional cleaning. When used as directed, Team 323 Disinfectant will disinfect hard non-porous surfaces, floors, walls, counter tops and furniture. It may be used upon to deodorize bathroom areas, garbage disposal pails, food storage areas, animal quarters and other areas where obnoxious odors may develop. This product may be used to control mold and mildew, and as a general purpose anti-bacterial detergent in homes, schools, restaurants, hospitals, nursing homes, and other places where efficient cleaning and antimicrobial action is desired.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION
It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

FOR CLEANING

Lightly Soiled Areas - surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of Team 323 Disinfectant per gallon of water. Rinse cleaned area with fresh water.

Heavily Soiled Areas - mop or brush soiled surface with a solution containing 2-3 ounces of Team 323 Disinfectant per gallon of water. Rinse cleaned surface with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard non-porous surfaces in homes, schools, restaurants, restrooms and other public areas, mop or brush with a fresh solution containing 1 1/2 ounces of Team 323 Disinfectant per gallon of water so as to maintain thoroughly wetted surface for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality. Do not reuse used solution.

To disinfect hard non-porous surfaces in locker rooms, shower stalls, walkways, around pools and other areas against pathogenic fungi, mop or brush with a fresh solution containing 2 ounces of Team 323 Disinfectant in 3 gallons of water so as to maintain thoroughly wetted surface for ten minutes. This solution will destroy Trichophyton Interdigitale, a causative agent of athlete's foot. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Do not reuse used solution.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard non-porous surfaces in hospitals and nursing homes, mop or brush with a fresh solution containing 2 1/2 ounces of Team 323 Disinfectant per gallon of water so as to maintain thoroughly wetted surfaces for ten minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces of Team 323 Disinfectant per gallon of water, and then rinsed with a fresh solution containing 2 ounces of Team 323 Disinfectant per gallon of water before disinfection. Do not reuse used solution. This product has not been tested for effectiveness against Mycobacterium tuberculosis and must not be relied upon when tuberculocidal activity is intended by the user.

DEODORIZATION

Prior to deodorization of bathroom areas, garbage pails, diaper pails, food storage areas, kennel areas, and other areas where obnoxious odors may develop, remove all garbage, refuse, food and/or animals. Pre-clean surfaces using pressurized water where possible before deodorization. To deodorize, mop or brush surfaces thoroughly with a solution containing 2 1/2 ounces of
