UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

SEP 15 1993

Ms. Monica M. Castulik
Schultz Company
14090 Riverport Dr.
P. O. Box 173
Maryland Heights, MO 63043

Dear Ms. Castulik:

Subject: Revised Labeling to modify Directions for Use
Schultz-Instant® House Plant and Garden Insect Spray
EPA Reg. No. 39609-1
Submission dated June 28, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. A copy of the stamped label is enclosed for your records. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

1) Since your label depicts restaurants as a site, add the following precautions:

Do not apply directly to food, Do not apply while food processing is underway. In commercial food handling facilities, cover or remove any food during treatment. All food processing surfaces should be thoroughly cleaned with an effective cleaning compound followed by a potable water rinse before using.

2) The label ingredient substatement --"Equivalent to 0.16% (butylcarbityl)(6-propylpiperonyl) ether and 0.04% related compounds"-- is definitive of piperonyl butoxide only; delete the "bullet" reference for pyrethrins.

Sincerely,

Adam Heyward

Acting Product Manager 10
