**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to a fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

MB-56 is recommended for recirculating cooling systems where an oxidizing chemical can be used and where rapid removal of biological growth is desired.

KEYSTONE MB-56

CHEMICAL OXIDIZER FOR CLEANING RECIRCULATING COOLING SYSTEMS

Bactericide-Algicide-Slimicide

*For Industrial, Commercial, and
Agricultural Use Only*

ACTIVE INGREDIENT

*Sodium dichloro-s-triazetrione

99.0%

INERT INGREDIENTS

1.0%

100.0%

*Provides 55% available chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER

PRACTICAL TREATMENT (FIRST AID): If swallowed feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately. If on skin brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in Eyes flush with cold water for at least 15 minutes. Get medical attention.

Treatment of Algal or Bacterial Slimes. Adjust water pH to 7.4-7.8 before initiating this treatment. With tower operating, but with bleed valve cut off, add directly to the sump 2 to 4 ounces of MB-56 per 1,000 gallons of water in the system. Wait 10 minutes and measure available chlorine residual. If less than 3 ppm repeat treatment. Repeat this process until the tower has achieved the desired state of cleanliness. Then discontinue the treatment and let the chlorine residual drop below 1.0 ppm. Clean sump and screens. If necessary drain the water from the system and replace it with fresh water. Open blowdown valve and return system to normal operation.

Superchlorination of Systems Receiving Continuous Chlorination. Recirculating cooling systems on continuous chlorination at low chlorine levels may function better if they are periodically superchlorinated to remove chloramines and other organic wastes that are not removed by low level chlorination. Superchlorination with MB-56 is recommended at least once a month. More frequent treatment may be desirable in towers subject to higher levels of organic contamination. To superchlorinate adjust pH of the recirculating water to 7.4-7.8. With the tower operating, but with blowdown valve closed add 2 ounces of MB-56 per each 1,000 gallons of water in the system. Wait 2 hours and measure chlorine residual. When chlorine residual is 1.0 ppm or less, open blowdown valve and resume normal operation.

STORAGE AND DISPOSAL: Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. Rinse empty container well and place in trash collection or dispose in approved landfill area or bury in a safe place.

U.S. ENVIRONMENTAL PROTECTION AGENCY NOTICE OF PESTICIDE	111-1-1000
NAME AND ADDRESS OF REGISTRANT (PRINT) 	
<p>NOTE: Changes in labeling, formula, formula in substance from that accepted in connection with this registration must be submitted and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>	
<p>On the basis of information furnished by the registrant, the above name of pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his own motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act, and to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p>
