

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (M/15A7) WASHINGTON, D.C. 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE
	TERM OF ISSUANCE	22 OCT 1984
	NAME OF PESTICIDE PRODUCT	

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

[]

[]

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

by EPA Letter Dated
3743-16
OCT 22 1984

Keystone MB-425

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
Registration Under EPA Reg. No.

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 25.0%

INERT INGREDIENTS 75.0%

This product contains 2.3 lb. of active ingredient per gallon and
weighs 9.25 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of feed. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or by back on patient's tongue. Emetics such as 2 teaspoonful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish. Do not apply in marine and/or estuarine or fresh water. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

NET CONTENTS _____

**DIRECTIONS FOR
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner not consistent with its labeling.

Keystone MB-425 is used in recirculating cooling tower systems and industrial air-washing systems. Prior to the use of Keystone MB-425 in recirculating cooling tower systems, systems showing microbiological slime, and other deposits. Then make an initial dosage of 6.8 fl. oz. of Keystone MB-425

40 to 60 ppm of Keystone MB-425 in water in the system. Repeat initial dosage until control is achieved. Add an additional 2.3 to 6.8 fl. oz. of Keystone MB-425 per 100 gal of water (20 to 60 ppm) every 20 to 60 ppm every 7 days or as needed. The frequency of addition depends on the severity of the microbiological problem and the amount of bleedoff from the sump of recirculating cooling tower systems.

Keystone MB-425 is used in recirculating cooling tower systems to maintain effective mist-eliminating components. Cleaned to remove bacterial slime and other deposits. Add an initial dosage of 13.6 fl. oz. of Keystone MB-425 per 100 gal of water (13.6 fl. oz. of Keystone MB-425 per 100 gal of water) every 7.9 to 13.6 fl. oz. of Keystone MB-425

water should be employed every 1 to 5 days, or as needed. Repeat initial dosage until control is achieved. Repeat initial dosage until control is achieved. Repeat initial dosage until control is achieved.

Keystone MB-425 is used to control bacteria, including sulfate-reducing organisms, in water-based drilling muds, completion fluids, and waterflood operations. In systems fouled with bacteria, Keystone MB-425 should be added as a slug dose of 16 to 32 ppm (1.9 to 3.8 fl. oz. per 100 gal. of water treated). This should be repeated every 7 to 14 days.

Keystone MB-425 employing a concentration of 16 ppm, based on total water, in recirculating cooling tower systems and continuous addition of Keystone MB-425 to heater-treater dump, gathering lines, or recirculating water upstream to the filter.

Keystone MB-425 is also used to control bacteria in water-based drilling muds, completion fluids, and waterflood operations. In systems fouled with bacteria, Keystone MB-425 should be added as a slug dose of 16 to 32 ppm (1.9 to 3.8 fl. oz. per 100 gal. of water treated). This should be repeated every 7 to 14 days.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE** Do not expose to extreme temperatures. Do not store in drums should be placed in overpack drums for disposal. Spills should be cleaned up in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal is a violation of Federal Law. If these wastes cannot be disposed of by other procedures approved by state and local officials, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

CONTAINER DISPOSAL
PLASTIC: Triple rinse (or equivalent). Then offer for recycling or disposal in a sanitary landfill, by incineration, or, if allowed by state and local officials, by other procedures approved by state and local officials.
METAL: Triple rinse (or equivalent). Then offer for recycling or disposal in a sanitary landfill, or by other procedures approved by state and local officials.
