DIRECTIONS FOR USE

GENERAL CLASSIFICATION

Use a solution of GERMISOL to clean the product as a general disinfectant.

FOR CLEANING

Lightly soiled areas - Surfaces to be cleaned should be washed or brushed with a solution containing 3 ounces of GERMISOL per gallon of water. Rinse clean with fresh water.

Heavily soiled areas - Use a brush soiled surface with a solution containing 5-6 ounces of GERMISOL per gallon of water. Rinse clean with fresh water.

GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard non-porous surfaces in homes, schools, restaurants, restrooms and other public areas, mop or brush with a fresh solution containing 3 ounces of GERMISOL per gallon of water so as to maintain thoroughly soiled surfaces for 10 minutes. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). These surfaces which may later come in contact with food must be rinsed with clear water of drinking quality. Do not reuse used solution.

To disinfect hard non-porous surfaces in health rooms, shower stalls, laboratory coats and other areas, mop or brush with a fresh solution containing 5 ounces of GERMISOL per gallon of water so as to maintain thoroughly soiled surfaces for 10 minutes. This solution will destroy *Trichophyton mentagrophytes*, a common agent of athlete's foot. All soiled surfaces must be pre-cleaned prior to disinfection (follow directions for cleaning). Do not reuse used solution.

HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard non-porous surfaces in hospitals and nursing homes, mop or brush with a fresh solution containing 5 ounces of GERMISOL per gallon of water so as to maintain thoroughly soiled surfaces for 10 minutes. All soiled surfaces must be pre-cleaned prior to disinfection. These surfaces that are heavily soiled with blood, fecal material or pus should be thoroughly scrubbed with a solution containing 5-6 ounces of GERMISOL per gallon of water and then rinsed with a fresh solution containing 5-6 ounces of GERMISOL per gallon of water before disinfection. Do not reuse used solution. This product has not been tested for effectiveness against *Mycobacterium tuberculosis* and must not be used in areas where tubercle bacilli are intended by the user.

DEODORIZATION

Prior to disinfection of bathroom areas, garbage pails, diaper pails, food storage areas, toilet areas and other areas where odors may develop, remove all garbage, urine, feces and/or animal wastes. Pre-rinse surfaces with pre-cleaned water where feasible before disinfection. To deodorize mop or brush surfaces thoroughly with a solution containing 5 ounces of GERMISOL per gallon of water.

GENERAL INFORMATION

GERMISOL is an effective and efficient cleaner designed for use in hospitals, industrial and institutional cleaning areas used as directed. **GERMISOL** will disinfect hard non-porous surfaces such as walls, floors, countertops and furniture. It will also clean and deodorize bathroom areas, garbage pails, diaper pails, food storage areas, animal quarters and other areas where odors may develop. This product may be used to control pathogenic fungi, and as a general purpose disinfectant in homes, schools, restaurants, health care facilities, hotels, public rooms and other places where a high level of cleanliness and disinfection is desired.
