Algaecide Concentrate Plus contains an organic polymer formulation which helps clarify and settle dirt in pools. It is effective over a wide range of pH conditions, contains no metals and is non-foaming.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Algaecide Concentrate Plus is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using Algaecide Concentrate Plus.

For pools having just visible algae growth add an initial dose of 22 to 34 fluid ounces of Algaecide Concentrate Plus per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 12 to 22 fluid ounces of Algaecide Concentrate Plus per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 4 to 8 fluid ounces of Algaecide Concentrate Plus per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

Algaecide Concentrate Plus is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. Algaecide Concentrate Plus can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix Algaecide Concentrate Plus with concentrated dry or liquid chlorine products.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. Do not reuse empty container. Triple rinse (or equivalent) and dispose of container in an incinerator or in an approved landfill, or bury in a safe place. Residue that cannot be used or reprocessed should be disposed of in a landfill approved or buried in a safe place away from water supplies. Open
