

EEESE SYSTEMS™

BIO-SHOCK

COOLING TOWER
ALGAECIDE, FUNGICIDE

ACCEPTED
39910-3

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

EEESE SYSTEMS BIO SHOCK
is a highly effective algicide and fungicide for use in cooling towers and other water systems. It is safe for use in all types of water systems and is non-toxic to humans and animals. It is also safe for use in all types of water systems and is non-toxic to humans and animals.

Apply 100 ppm of BIO-SHOCK to the water in the cooling tower. The water should be treated with BIO-SHOCK at a concentration of 100 ppm. The water should be treated with BIO-SHOCK at a concentration of 100 ppm.

Subsequent to the application of BIO-SHOCK, the water should be treated with BIO-SHOCK at a concentration of 100 ppm. The water should be treated with BIO-SHOCK at a concentration of 100 ppm.
