# **KEEP OUT OF REACH OF CHILDREN**

# DANGER

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER/CORROSIVE: Causes severe eye and skin damage. Do not get in eyes, skin or on clothing. May be fatal if swallowed or absorbed through skin. Precautions should include the use of eye shields, rubber gloves and protective clothing. Do not breathe spray dust. Use with adequate ventilation. Wash thoroughly after handling. In case of severe burns medical attention should be obtained immediately. Remove and wash contaminated clothing before reuse. For first aid instructions, see "Statement of Practical Treatment" section.

# PHYSICAL OR CHEMICAL HAZARDS

Corrosive. May be allergenic, avoid skin contact. (Gleason, Gosselin, Hodge: Clinical Toxicity of Commercial Products: Williams & Wilkings: 2nd Edition 1963)

# ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA

ACCEPTED with COMMENTS in EPA Letter Detect

4 MAY 1994

Under the Federal Insectisit. Fungicide, and Robentieide Act of amended, for the pesticide registered under EPA Day No.

### STATEMENT OF PRACTICAL TREATMENT

**IF SWALLOWED:** Drink large quantities of water. Do not induce vomiting. Call a Physician or Poison Control Center immediately.

IF ON SKIN: Wash thoroughly with soap and water for at least 15 minutes.

IF IN EYES: Hold the lids open and flush immediately with a slow stream of water: continue this procedure for 15 minutes. Contact a physician.

### **IF IRRITATION PERSISTS SEEK MEDICAL ATTENTION.**

### **DIRECTIONS FOR USE**

)

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

MILES INC. DISCLAIMS ALL LIABILITY BASED ON BREACH OF WARRANTY, NEGLIGENCE, STRICT TORT LIABILITY OR ANY OTHER THEORY OF LIABILITY FOR ANY INJURIES, DAMAGES, OR FAILED EFFICACY RESULTING FROM THE USE OF THIS MILES INC. PRODUCT AS AN INGREDIENT IN ANY FORMULATION WITH A USE NOT SPECIFICALLY LISTED IN ITEM (1) UNDER "DIRECTIONS FOR USE" ON THIS LABEL.

# REFORMULATORS AND REPACKAGERS OF THIS PRODUCT MUST OBTAIN THEIR OWN REGISTRATIONS FROM THE ENVIRONMENTAL PROTECTION AGENCY.

See Technical Information Sheet No. 121 for use directions.

### STORAGE AND DISPOSAL

**PROHIBITIONS.** Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE DISPOSAL.** Pesticide, spray mixture, rinsate or waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL**. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

STORAGE INSTRUCTIONS. Product should be stored in an area that is not subject to extreme temperatures. Proper protective equipment, as indicated above, should be worn when opening, transferring, and using product. Close drum tightly when not in use. Spiil-ieak procedures and additional handling information is contained on the material safety data sheet.

#### П. PRODUCT

Preventol CMK Preservative is a high purity chemical suggested as a preservative against bacterial deterioration for industrial water based compositions, such as adhesives, joint cements, and latex emulsions to impart package stability, leather at all stages of production and metalworking fluids and cutting oils. When Miles Preventol CMK Preservative is used at the recommended levels, the shelf life of the unopened package is a minimum of twelve (12) months. After opening the package the duration of the effectiveness should be maintained for the uccful service life of the product.

Page 1 of 5

BEST AVAILABLE COPY

Page 2 of 5 Preventol CMK Preservative Draft: December 22, 1993

### **PRODUCT - CONT.**

Parachlorometacresol, the active ingredient in Preventol CMK Preservative, is approved under Title 21, Chapter 1, Food and Drug Administration, Department of Health and Human Services, Subpart B, Section 175.105, as a preservative component of adhesives intended for use in packaging, transporting or holding food. It is also approved for use under Section 178.3120 as a preservative in the manufacture of animal glue intended for use in packing, processing, preparing, treating, packaging, transporting, or holding of food.

### **DETAILED DIRECTIONS FOR USE:**

Preventol CMK Preservative is effective against a wide variety of bacteria for the preservation of adhesives, glues, joint cements, latex and other polymer emulsions, leather at all stages of production and metalworking/cutting fluids.

THE EXACT CONCENTRATION OF MILES PREVENTOL CMK PRESERVATIVE REQUIRED WILL VARY WITH THE COMPOSITION TO BE PROTECTED. TO REACH OPTIMUM EFFECTIVENESS, FIELD TESTING SHOULD BE CONDUCTED, IN ADDITION TO CONTACTING YOUR MILES REPRESENTATIVE. MICROBIOLOGICAL ASSAY CAN DETERMINE THE LEVEL REQUIRED FOR YOUR PARTICULAR APPLICATION/USE.

Recommended use: The following recommended doses of Preventol CMK Preservative must be used to provide preservative efficiency:

# ) ADHESIVES:

)

### **EFFECTIVE CONCENTRATION**

| Polyvinyl acetate      | 0.1 - 0.3% | ADDECTED<br>with COMPANY   |
|------------------------|------------|--|
| Polyvinyl alcohol      | 0.1 - 0.3% | in EPA Letter Datat  |
| Acrylic                | 0.1 - 0.3% |  |
| Casein                 | 0.2 - 0.4% | <b>F 4 MAY 1994</b>  |
| Dextrin                | 0.1 - 0.3% | Under the Federal Locaticide,<br>Funderide and Rodentzide Ast de |
| Hydroxyethyl cellulose | 0.1 - 0.3% | Thended for the <b>pesticidi</b>                                 |
| Methyl cellulose       | 0.1 - 0.3% | Togistered under FPA Peg. NO                                     |
| Styrene butadiene      | 0.1 - 0.3% | 3996 7-12  |

The weight of Preventol CMK Preservative to be used is based on the total weight of the adhesive formulation. The preservative should be incorporated into the adhesive formulation just fellowing the initial addition of water. The adhesive formulation should be stirred to ensure homogeneous distribution of the preservative.

9

Page 3 of 5 Preventol CMK Preservative Draft: December 22, 1993

Under the Fe

Fungicide, and Rodenticic emended, for the po

registered under EPA Reg. No.

### **EFFECTIVE CONCENTRATION**

**EFFECTIVE CONCENTRATION** 

0.05 - 0.30%

0.05 - 0.30%

0.05 - 0.30%

0.05 - 0.30%

0.05 - 0.30%

0.05 - 0.30%

0.05 - 0.30%

| Paste Type, vinyl latex | 0.075 - 0.15% |
|-------------------------|---------------|
| Paste type, protein     | 0.075 - 0.15% |

The weight of Preventol CMK Preservative to be used is based on the total weight of the joint cement formulation. The preservative should be incorporated into the joint cement formulation just following the initial addition of water or other liquid components sufficient to disperse the preservative.

### POLYMER DISPERSIONS: AND EMULSIONS

)

JOINT CEMENTS:

Acrylic Systems Polyvinylacetate (PVA) Systems Vinyl/Acrylic-Based Systems Styrene Butadiene Systems **Polyester-Based Systems** Polyurethane-Based Systems **Other Polymer Dispersions** 

Preventol CMK Preservative is added immediately after the preparation of the polymer dispersion or emulsion during the cooling process. Losses of active ingredient caused by elevated temperatures should be avoided. For homogeneous distribution, Preventol CMK Preservative should be dissolved in suitable solvents such as ethanol, 1,2-propanediol, water dilutable alkaline solutions then added to emulsion concentrates or polymer dispersions.

### **LEATHER:**

### **EFFECTIVE CONCENTRATION**

| Pickle solutions and pickled hides         | 0.15 - 0.25% |
|--|--------------|
| Chrome leather (calculated on pelt weight) | 0.10 - 0.20% |
| Leather pasting adhesives                  | 0.05 - 0.10% |
| Leather pigment finishes                   | 0.20 - 0.40% |

Preventol CMK Preservative may be dissolved in five times the amount of alcohol and then stirred into pickle solutions. In the case of chrome leather, an effective protection against mold attack may be obtained without additional labor by stirring Preventol CMK Preservative together, with soda into the basifying solution, since Preventol CMK Preservative dissolves freely in the alkaline solution

The oil-soluble Preventol CMK Preservative can also be dissolved in the fat liquor and applied in the drum simultaneously. Finished vegetable-tanned leathers and chrome leathers may also be protected against mold attack by a treatment on both sides of the material with an 0.2 - 0.4% solution of Preventol CMK Preservative.

Page 4 of 5 Preventol CMK Preservative Draft: December 22, 1993

LUBRICOOLANTS AND MINERAL OIL BASED PRODUCTS:

### **EFFECTIVE CONCENTRATION**

| Mineral Oil Based Products     |              |   |
|--------------------------------|--------------|---|
| Cooling Fluids - Concentrate   | 1.00 - 5.00% |   |
| Ready for Use                  | 0.05 - 0.25% | in EPA Lotter Detect  |
| Boring and Cutting Oils        | 0.50 - 0.25% |   |
| Fuel Oils                      | 0.02 - 0.15% | 4 MAY 1954  |
| Hydraulic Oils                 | 0.05 - 0.25% | diadas abo Tadamit Tassatistic  |
| Non-Mineral Oil Based Products |              | Under the Federal Insocticide,<br>Fungleide, and Exclusive Act as<br>amended, for the posticide<br>main fore under EPA Reg. No. |
| Cutting Oils                   | 0.05 - 0.30% | amended, for the putterne   |
| Cooling Fluids                 | 0.05 - 0.30% | 39167-12  |

During the production of metalworking fluids to be used as cutting and grinding coolants in the metal industry, Preventol CMK Preservative is dissolved in the necessary amount of mineral oil, auxiliary (for example dispersing agent), solvents such as ethanol, glycols, or water dliutable alkaline concentrates, and added to form a homogeneous mixture in the substrates (metalworking fluids, etc.) by stirring. Dispersions containing 5-10% metalworking fluids in water can also be preserved by adding preservative based upon the amount of metalworking fluid present, typically at 0.15 pounds of Preventol CMK Preservative per gallon of substrate. For tank side additives meant to preserve dispersion or metalworking fluid after it has been in the machinery for an extended period of time, the Preventol CMK Preservative is added at concentrations of approximately 1.3 pounds of preservative per gallon of substrate.

**DANGER:** MAY BE ALLERGENIC, AVOID SKIN CONTACT. "MAY BE FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN! MAY FRODUCT SEVERE BURNS! DO NOT GET IN EYES, ON SKIN OR ON CLOTHING. AVOID SPRAY MIST WASH THOROUGHLY AFTER HANDLING."
