Preventol® A5-S

AN ALGICIDAL, FUNGICIDAL, SLIMICIDAL AND ANTIFOULING INGREDIENT FOR USE IN MANUFACTURING AND FORMULATING ANTIFOULING PAINTS AND ROOF COATINGS.

ACTIVE INGREDIENT: Polyfluantid 98.1%
OTHER INGREDIENTS 1.9%
TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING. Causes skin irritation. Causes substantial but temporary eye injury. Harmful if inhaled. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not get on skin, in eyes, or on clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing before reuse.

Paint production - During handling of Preventol A5-S, wear protective clothing including protective eyewear (goggles or face shield) a full-face dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved full face respirator with any N, R, P or HE filter, apron, long sleeves, and chemical resistant gloves. For operations using more than 25 kg (1 bag) of Preventol A5-S, an automated, enclosed hopper must be used.

Antifoulant and Roof coating application - Wear protective eyewear, chemical resistant gloves, a long-sleeved shirt, long pants, shoes and socks during application. Follow paint manufacturer guidance for additional protective equipment and work practice recommendations.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact CHEMTREC at 800-424-9300 (in the United States) or 1-703-527-3887 (international) for emergency medical treatment information.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Antifouling Paints:

For use in the production and formulation of antifouling paints. Persons using this product to produce or formulate antifouling paints are responsible for obtaining EPA registration of their products prior to selling or distributing them. Antifouling paint products formulated using Preventol A5-S are limited to application by paint brush or paint roller; do not apply paints containing Preventol A5-S using an airless spray paint method.

Roof Coatings:

Preventol A5-S may be used to formulate Roof Coatings. Preventol A5-S is an antimicrobial powder designed for incorporation into liquid roof coating materials during their manufacture to impart antimicrobial activity to the dried film. Preventol A5-S suppresses the growth of bacteria, algae, fungi, mold and mildew in or on the dried film. If microbial activity in the roof coating could lead to unpleasant odors, discoloration or deterioration of the product, then such claims may be made for the roof coating. Roof coatings incorporating Preventol A5-S may not make any public health claims relating to antimicrobial activity without first obtaining an EPA registration for the roof coatings which permits such claims. Roof coatings may contain from 0.10% to 0.49% by weight of the active ingredient. NOT FOR THE FORMULATION OF PRODUCTS THAT ARE DESIGNED TO BE SPRAY APPLIED. ROOF COATINGS PRODUCED WITH PREVENTOL A5-S ARE FOR PROFESSIONAL APPLICATION ONLY.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place and in such a manner as to prevent cross-contamination with other pesticides, fertilizers, food and feed. Store in original container and out of reach of children, preferably in a locked storage area.

PESTICIDE DISPOSAL: Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill or incineration or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke. If outer box is contaminated and cannot be reused, dispose of it in a manner required for the inner bag.

Disclaimer: Seller (whether manufacturer, distributor, or other) makes no warranty express or implied, including the implied warranty of merchantability, regarding this product except the composition set forth in the ingredients statement herein, and is not liable for special or consequential damages, the exclusive remedy being the replacement of the product. Buyer or user assumes all risk of possession, handling or use of this material when such use or handling is contrary to label instructions.
