## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if swallowed or absorbed through the skin. Avoid contact with eyes. Avoid breathing vapor or removing vapors. Avoid contact with food. Avoid contact with food preparation surfaces. Remove pets, birds, and cover fish aquariums before spraying. Avoid contamination of food and food stuffs. Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment and thoroughly cleaned before using. When using the product in these areas, apply only when the facility is in operation. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. For skin and eye contact, physician.

### PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not puncture or incinerate container. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting.

### STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not reuse empty container. Wrap container and put in trash. Do not reuse. Never throw container into fire or incinerator.

### DIRECTIONS FOR USE

This is a residual insecticide. Use this product in a manner inconsistent with its labeling. SHAKE WELL BEFORE EACH USE. Remove protective cap. Aim spray opening away from persons. Push button to spray.

**TO KILL HOUSEFLIES, MOSQUITOES, AND GNATS, HOODS, CLOSETS, BATHS, AND OTHER ROOMS:** Hold nozzle upwards, direct the spray at all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

**TO REDUCE ANNOYANCE FROM FLYING INSECTS, OUTDOORS:** Reduce mosquitoes, gnats, flies, houseflies, ear flies and flying moths, midges by spraying their resting areas. Follow directions listed above. Hold nozzle 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic foot of area while moving away from the treated area. To reduce annoyance from these flying insects, treat pet enclosures and pet cages in a similar manner. Spray only when the air is still. Allow spray to settle before occupying the treated area. Repeat as necessary.

**TO KILL ROACHES, EARWIGS, GRAIN MITES, SOWBUGS, SPIDERS, AND CENTIPEDES:** CONTACT SPRAY. Spray thoroughly into hiding places such as cracks, crevices, closets, under pipes and drains, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

**RESIDUAL SPRAY:** Spray baseboards, cracks, crevices, around door and window frames, and other hiding places such as closets, under beds, under appliances, under floorboards. The active ingredient in this formulation sprays in a fine mist, penetrates cracks and crevices, and kills insects. Spray at the rate of 1 to 4 seconds per linear foot at a distance of 12 to 14 inches from the surface. Repeat as necessary.

**TO KILL WASPS:** Applications should be made in the late evening when insects are at rest. Spray in the vicinity of nesting and breeding places, contacting as many insects as possible. Repeat as necessary.

**TO KILL ANTS:** Apply to ant trails a distance of 10 to 15 feet from the nest. Repeat as necessary.

**DOMESTIC PLANT PESTS:** This is a residual insecticide. Use this product in a manner inconsistent with its labeling. Shake well before each use. Remove protective cap. Aim spray opening away from persons. Push button to spray.

**TO KILL MOSQUITOES, GNATS, AND OTHER INSECTS:** Hold nozzle upwards, direct the spray at all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.
