#### DIRECTIONS FOR USE - General Classifications

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Rations containing Squealer OL-Stock Cow Mineral may be fed up to slaughter and to lactating dairy cows without withholding the milk from market during or after treatment. Start feeding Squealer OL-Stock Cow Mineral early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. When fed, Squealer OL-Stock Cow Mineral passes through the digestive system into the animal's manure where it kills fly larvae on contact shortly after fly eggs hatch. Squealer OL-Stock Cow Mineral prevents the development of horn flies, face flies, house flies and stable flies in the manure.

**DIRECTIONS FOR USE (Continued)**  
nure of treated cattle, but it is not effective against existing adult flies. In some cases, supplementary fly control measures may be needed in and around cattle lots and barns to control adult house flies and stable flies which can breed not only in manure but in other decaying vegetable matter or silage on the premises. In order to achieve optimum fly control Squealer OL-Stock Cow Mineral should be used in conjunction with other good management and sanitation practices. Feeds prepared with Squealer OL-Stock Cow Mineral should not be pelleted, used with feeds containing predominately pellets, or mixed in liquid feed supplements.

#### FEEDING DIRECTIONS

Feed only to cattle. Offer Squealer OL-Stock Cow Mineral free choice as the only source of minerals and salt. Do not offer additional salt.

Depending on the nature of the ration or pasture, consumption should approximate one pound per 8 cows daily which will provide 792 mgs. per head for cattle weighing between 400 and 1200 pounds.

#### PRECAUTIONARY STATEMENT

##### HAZARDS TO HUMANS CAUTION

Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water for 15 minutes. If irritation persists, see a physician.

##### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

##### PESTICIDE DISPOSAL

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

##### CONTAINER DISPOSAL

Completely empty bag into mixing equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke.
