Argenion

BACTERIOSTATIC WATER TREATMENT UNIT

MODEL CT 1

GENERAL CLASSIFICATION: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

The Argenion Bacteriostatic Water Treatment Unit, Model CT-1 has been designed to provide you with up to 100 gallons of crystal-clear, good-tasting, odor-free municipally treated tap water.

This unit is composed of oligodynamic silver which has been combined with activated carbon through a complex manufacturing technique so that the filter media will provide bacteriostatic activity within the filter unit, making the effective life of the unit much longer than an ordinary carbon filter. This product has been tested in private and government laboratories, and is designed for use with municipally treated tap water. The total life of the ARGENION Bacteriostatic Water Treatment Unit, Model CT-1 is up to 100 gallons depending on the condition of the municipally treated tap water

WARRANTY: T.M.I., Inc. warrants this product for twelve (12) months from date of purchase against defects in workmanship and parts. Proof of purchase is required. The limit of T.M.I.'s liability to our customers shall not exceed the cost of or replacement of our product. Relief under this warranty is given expressly in lieu of all other warranties expressed or implied and constitutes the only warranty made by T.M.I., Inc.

CARTRIDGE REPLACEMENT: The Argenion cartridge is guaranteed to retain it's bacteriostatic effectiveness for 100 gallons.

OPERATION PROCEDURES:

Maximum Water Temperature: 85 degrees F
