Contents: 100 round tablets
Net Weight 300 g (10.66 lbs)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
DANGER**

Respiratory hydrogen phosphide gas which is not poisonous if inhaled or swallowed. Do not get it in eyes or on skin or clothing. To be used only by those under the direct supervision of a Certified Applicator. Do not use except for immediate usage. Always open in a well-ventilated area. Wash hands thoroughly after use. Keep away from children and animals. For the approval of the U.S. Department of Health, Bureau of Mines, for phosphine protection.
SYMPTOMS: Pressing sensation in the chest, nausea and diarrhea.

ENVIRONMENTAL HAZARDS

Hydrogen phosphide decomposes in the atmosphere to form traces of phosphoric acid. Residue is not toxic. An active ingredient is used when disposal instructions are followed. Pure hydrogen phosphide is not easily soluble in water. Tablets are stable at normal humidity and temperatures. It may however react with water and acids. Use in well-ventilated areas and avoid contact with skin, especially at high temperatures and humidity. Precautions should be taken to prevent phosphine gas from entering buildings and some types of copy or paper into enclosed spaces.

PHYSICAL OR CHEMICAL HAZARDS

Keep away from heat and water as this causes immediate release of gas. Plunging tablets in the dust from their packaging may cause a temperature increase and a fast release of gas. Prevent the use of storage equipment which is not suitable.

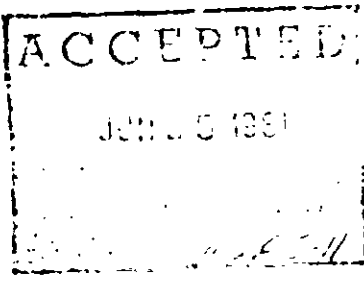

DIRECTIONS FOR USE

For use only by persons who are certified Applicators, or persons under their direct supervision, and only for those uses registered to the Certified Applicator's certification.

STORAGE AND DISPOSAL

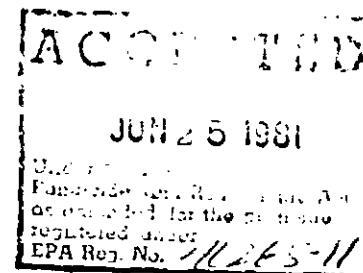

Store in a cool, dry place, away from heat and water. Do not store in a container which is not suitable. Do not use except for immediate usage. Always open in a well-ventilated area. Wash hands thoroughly after use.

WARRANTY Similar warranty to that of the product of the manufacturer. The manufacturer warrants that the product is free from defects in material and workmanship under normal use and conditions. The manufacturer's warranty does not cover damage caused by misuse, neglect, or accidents, or by fire, flood, or other causes beyond the control of the manufacturer.

LIST OF PROCESSED FOODS WHICH MAY BE FUMIGATED WITH MAGTOXIN*
