

O-C SAN-Q No. 3 will control algae and bacteria slimes found in recirculating cooling tower waters.

O-C SAN-Q No. 3 helps clean and loosen slime debris from cooling system surfaces. When used in slug doses, no other microbiocide is required.

O-C SAN-Q No. 3 is economical to use because it is concentrated. It should be handled with care.

Precautionary Statements
Hazards to Humans

DANGER

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Treatm. effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD, OR FEED, BY STORAGE OR DISPOSAL.
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

PESTICIDE DISPOSAL

PESTICIDE THAT CANNOT BE USED, OR CHEMICALLY REPRODUCED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES

CONTAINER DISPOSAL

DISPOSE OF IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS. BURY IN A SAFE PLACE OR RETURN TO DRUM RECONDITIONER.

O-C SAN-Q No. 3 Microbiocide

Twin-Chain Quaternary
Ammonium Compound Concentrate
Water Treatment Microbiocide
for Building and Industrial
Cooling Towers

ACTIVE INGREDIENTS

Didcetyl dimethyl ammonium chloride	50%
Isopropyl alcohol	20%
INERT INGREDIENTS	30%
	100%

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

gal. BATCH NO.

Directions for use GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product with its labeling.

To control algae and bacterial slimes, use O-C SAN-Q No. 3 best results, slug feed. The frequency of adding depends on many factors. To optimize your use of this procedure.

1. Initially use 6 fluid ounces per 1000 gallons of water (active quaternary.)
Should the above dosage not give satisfactory results per 1000 gallons of water.
Repeat the initial dose every seven days or as needed.

2. When the above treatment level is successful, use 1000 gallons of water to maximize efficiency. Expect
Should slime develop again, go back to initial dose.

Cooling tower waters that are inherently low in alkalinity may be adequately controlled by the lower slug feed every seven days.

Dilute the appropriate amount of O-C SAN-Q No. 3 then add to the sump of the tower. Note, this product is a 20% solution.

Should tower be heavily fouled, a pre-cleaning is recommended.

gal. BATCH NO.

Directions for use GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To control algae and bacterial slimes, use O-C SAN-Q No. 3 as directed. For best results, slug feed. The frequency of addition of microbiocide needed depends on many factors. To optimize your use of O-C SAN-Q No. 3 follow this procedure.

1. Initially use 6 fluid ounces per 1000 gallons of water to be treated (20 ppm active quaternary.)

Should the above dosage not give satisfactory results, use 9 fluid ounces per 1000 gallons of water.

Repeat the initial dose every seven days or increase the frequency if needed.

2. When the above treatment level is successful, use 2 to 3 fluid ounces per 1000 gallons of water to maximize efficiency. Repeat weekly as needed.

Should slime develop again, go back to initial dosage.

Cooling tower waters that are inherently low in algae growth and bacteria count may be adequately controlled by the lower range of these dosages; slug fed every seven days.

Dilute the appropriate amount of O-C SAN-Q No. 3 in 1 or 2 gallons of water then add to the sump of the tower. Note, this product weighs 7.49 lbs per gallon (at 20° C).

Should tower be heavily fouled, a pre-cleaning is required.
