SANI-SPA

*For use in controlling the growth of
 algae, bacteria, and fungi in swimming
 pools, spas, whirlpools, and hot tubs.*

ACTIVE INGREDIENT:
 Poly[oxyethylene (dimethyliminio) ethylene-
 (dimethyliminio) ethylene dichloride] 5.0%
INERT INGREDIENT 95.0%

This product contains 0.42 lb of active ingredient per gallon and weighs 9.39 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.
FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.
ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

EPA REG. NO. 40602-6

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SANI-SPA is used to control the growth of algae in swimming pools, exterior spas, whirlpools, and hot tubs. For maximum effectiveness pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleared prior to using SANI-SPA.

For pools having just visible algae growth add an initial dose of 165 to 255 fluid ounces of SANI-SPA per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 90 to 165 fluid ounces of SANI-SPA per 10,000 gallons of water. Subsequent additions of 30 to 90 fluid ounces of SANI-SPA per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 17 to 26 fluid ounces of SANI-SPA per 1,000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 9 to 17 fluid ounces of SANI-SPA per 1,000 gallons of water. Subsequent additions of 3 to 9 fluid ounces of SANI-SPA should be made every 5 to 7 days after initial treatment for maintenance.

SANI-SPA is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline PH's. SANI-SPA can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix SANI-SPA with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Rinseate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

PLASTIC CONTAINERS: Do not reuse empty container. Triple rinse and concentrate or dispose of in an approved landfill or bury in safe place.
