Do not use in the presence of frost. Do not use in the presence of wind.

This product is a strong oxidizing agent. It is highly flammable and can cause fire or explosion. It is also highly corrosive and can cause severe burns to the skin and eyes. It is also highly toxic and can cause death if inhaled or swallowed. It is also highly irritating to the respiratory tract and can cause severe asthma. It is also highly irritating to the skin and can cause severe dermatitis. It is also highly irritating to the eyes and can cause severe conjunctivitis. It is also highly irritating to the mucous membranes and can cause severe inflammation. It is also highly irritating to the throat and can cause severe laryngitis. It is also highly irritating to the lungs and can cause severe bronchitis. It is also highly irritating to the heart and can cause severe arrhythmia. It is also highly irritating to the kidneys and can cause severe renal failure. It is also highly irritating to the liver and can cause severe hepatitis. It is also highly irritating to the pancreas and can cause severe pancreatitis. It is also highly irritating to the spleen and can cause severe splenitis. It is also highly irritating to the stomach and can cause severe gastritis. It is also highly irritating to the intestines and can cause severe enteritis. It is also highly irritating to the bladder and can cause severe cystitis. It is also highly irritating to the ureters and can cause severe ureteritis. It is also highly irritating to the urethra and can cause severe urethritis. It is also highly irritating to the vagina and can cause severe vaginitis. It is also highly irritating to the penis and can cause severe balanitis. It is also highly irritating to the testicles and can cause severe orchitis. It is also highly irritating to the epididymis and can cause severe epididymitis. It is also highly irritating to the vas deferens and can cause severe vasitis. It is also highly irritating to the prostate gland and can cause severe prostatitis. It is also highly irritating to the seminal vesicles and can cause severe seminal vesiculitis. It is also highly irritating to the ureters and can cause severe ureteritis. It is also highly irritating to the bladder and can cause severe cystitis. It is also highly irritating to the urethra and can cause severe urethritis. It is also highly irritating to the vagina and can cause severe vaginitis. It is also highly irritating to the penis and can cause severe balanitis. It is also highly irritating to the testicles and can cause severe orchitis. It is also highly irritating to the epididymis and can cause severe epididymitis. It is also highly irritating to the vas deferens and can cause severe vasitis. It is also highly irritating to the prostate gland and can cause severe prostatitis. It is also highly irritating to the seminal vesicles and can cause severe seminal vesiculitis.
