**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS**

CAUTION

Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water for 15 minutes. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Feral law to use this product in a manner inconsistent with its labeling.

Feed HM CUSTOM ROL 0.15 early in the spring before flies begin to appear and continue feeding throughout the summer into the fall until cold weather restricts fly activity.

Feed HM CUSTOM ROL 0.15 at the rate of .1 lb/cwt pounds of body weight per day by mixing it into the ground grain or complete daily ration.

HM CUSTOM ROL 0.15 may be fed up to slaughter and to lactating dairy cows.

HM CUSTOM ROL 0.15 prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle but it is not effective against existing adult flies. When starting a feeding program during the fly season, it is desirable to use other control measures to reduce the population of existing adult flies.

In some cases, supplemental fly control measures may be needed in and around cattle lots and buildings to control adult house flies and stable flies which can breed not only in cattle manure but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, HM CUSTOM ROL 0.15 should be used in conjunction with other good management and sanitation practices.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage disposal.

(note to producer- Storage precautions selected by company based on foreseeable complication, eg. "Do not allow to freeze" or "Do not store below - 0° F." or "Do not store next to herbicides." or "Can must be shaken vigorously after prolonged storage.")

Pesticide, spray mixture, or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, state, or local procedures.

(Paper and plastic bags)

(Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of bags in a sanitary landfill or by incineration if allowed by State and local authorities.

CAUTION

-2-

- d. Add a double asterisk after Inert Ingredients and then make it a double asterisk in front of "Refers only to ingredients which are not larvicidal." Delete the single asterisk after 99.85%.
 - e. Add the subheading "Pesticide Disposal" to the side of the paragraph starting "Pesticide that cannot be used...." Note that you can delete "spray mixture or rinse water" since they do not apply to your type of product.
 - f. Add the subheading "Container Disposal" to the side of the paragraph starting "Completely empty bag by shaking...." Delete "(Paper or plastic bags)" and delete the parenthesis before "Completely."
 - g. Delete the CAUTION and KEEP OUT OF REACH OF CHILDREN from the bottom of the reverse side of the tag.
 - h. Delete the "note to producer" paragraph, which was not supposed to appear on the label, from the Storage and Disposal section.
 - i. Add an S to Hazard so that the heading reads "Hazards to Humans."
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
