

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER**

DANGER — Poisonous if swallowed, inhaled, or absorbed through skin. Rapidly absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe spray mist. Wash thoroughly with soap and water after handling and before eating or smoking. Wear clean clothing. In case of spillage on person or clothing, immediately remove clothing and flush skin or eyes with plenty of water. For eyes, get medical attention.

Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part 11. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Do not contaminate feed and foodstuffs. Keep away from heat and open flame.

STATEMENT OF PRACTICAL TREATMENT — If swallowed and victim is conscious and not convulsing. Call a physician immediately. Give a glass or two of water, and induce vomiting by touching back of throat with finger. It is preferable to induce vomiting under medical supervision or to use gastric lavage with a cuffed endotracheal tube because of aspiration hazard. Remove victim immediately to emergency treatment facility.

If swallowed and victim is unconscious. Clear the upper airway and administer mouth-to-mouth resuscitation. If heartbeat is absent, administer cardiac resuscitation. Do not give anything by mouth. If convulsing, hold head back with jaw forward to keep upper airway clear. Transport immediately to emergency treatment facility, maintaining clear airway and administering artificial respiration.

If inhaled. Remove victim to fresh air. Apply artificial respiration if indicated. Get medical attention immediately.

If on skin. Remove contaminated clothing and wash affected areas with soap and water. Get medical attention immediately.

If in eyes. Flush eyes for at least 15 minutes with water. Get medical attention immediately.

In all cases of Endrin poisoning, medical attention must be gotten immediately or victim may die.

NOTE TO PHYSICIAN — Endrin is a CNS depressant and hepatotoxin. Toxic dosage causes convulsions, respiratory depression, and liver damage. Impaired respiration must be supported by oxygen given by mechanical ventilation. Diazepam is useful in controlling convulsions. Intravenous glucose and B vitamin B₁ help to protect the liver. There is no specific antidote. Do not give vegetable oils or milk (which increase GI absorption). Large amounts of activated charcoal help to limit GI absorption. Do not give adrenergic agents (myocardial irritability). Excretion of Endrin from the body may require days or weeks.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, shrimp, crabs, birds, and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams, ponds, tidal marshes, and estuaries. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

This pesticide is toxic to bees exposed to direct application. Applications should be timed to coincide with periods of minimum bee activity, usually between late evening and early morning.

PHYSICAL OR CHEMICAL HAZARDS — Do not use, pour, spill, or store near heat or open flame.

PROCEDURES TO BE FOLLOWED IF FISH KILLS OCCUR OR IF PONDS ARE CONTAMINATED

In case of fish kills, fish must be collected promptly and disposed of by burial. Ponds in which fish kills have occurred, and user-owned ponds exposed to Endrin by application at distances closer than otherwise prohibited, must be posted with signs stating "Contaminated. No Fishing." Signs must remain for one year after a fish kill has occurred or for six months after lesser contamination unless laboratory analysis shows Endrin residues in the edible portion of fish to be less than 0.3 parts per million (ppm).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**APPLICATION RESTRICTIONS
SMALL GRAINS AND COTTON**

Do not apply this product within 1/4 mile of human habitation.

Do not apply this product by air within 1/2 mile or by ground within 1/4 mile of lakes, ponds or streams. Application may be made at distances closer to ponds owned by the user, but such application may result in excessive contamination and fish kills.

Do not apply when rainfall is imminent.

Apply only when wind velocity is between 2 and 10 mph.

**APPLICATION RESTRICTIONS
SUGAR CANE**

Apply only with low-pressure ground equipment. Cover furrows with soil promptly after application.

RESTRICTED USE PESTICIDE

For retail sale to and use only by Certified Applicators or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

ACCEPTED

MAY 27 1981

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 40831-73

**FALLS CHEMICALS INC.
ENDRIN**

EMULSIFIABLE CONCENTRATE

ACTIVE INGREDIENTS:

Endrin (Hexachloroepoxyoctahydro-endo,endo-dimethanonaphthalene) . 19.1%

Xylene . 74.9%

INERT INGREDIENTS:

6.0%

TOTAL . 100.0%

This product contains 1.6 lbs. of Endrin per gallon.

**KEEP OUT OF REACH OF CHILDREN
DANGER — POISON**
