Date of Issuance:
AUG 20 1999

**NOTICE OF PESTICIDE
Reregistration**

Term of Issuance:
Unconditional Registration

Name of Pesticide Product:
**ENPROAL® Fly Control Block With
Rabon® Oral Larvicide**

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

**Dan S. Hickman
PM ag products Incorporated
100 S. Huntington
Syracuse, New York 46567**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration eligibility Documents, EPA has reregistered the product listed above. This action is taken under the authority of section 4 (g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Registration under this section does not eliminate the need for control reassessment of pesticides. EPA may require submission of data at anytime to maintain the registration of your product. with regards to labeling, you must make the labeling changes listed below:

- 1) Based on the Acute Toxicology profile for this product you must include a heading of "First Aid" or "Statements of Practical Treatment". The statements of first aid/ practical treatment should be placed directly below the header "Precautionary Statements". First Aid statements should read as follows:

FIRST AID

"IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF ON EYES: Flush with plenty of water. Call a physician if irritation persists."

Your product is required to have a "Note to Physicians." This should be located directly below your "First Aid" Statement and should contain the following information:

Signature of Approving Official: 	Date: AUG 20 1999
--------------------------------------	----------------------

- Technical Information on symptomatology;
- Use of supportive treatments to maintain life functions;
- Medicine that will counteract the specific physiological effects of the pesticide;
- Company telephone number to specific medical personnel who can provide specialized medical advice;

2) The "HAZARDS TO HUMANS" statement must be modified to read as follows:

"Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reaction to some individuals.

Personal Protective Equipment (PPE)

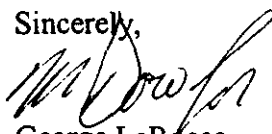

- long-sleeved shirt and long pants
- shoes and socks
- chemical resistant gloves

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Follow manufacturers instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

- 3) The header "User Safety Recommendations" must be placed in a box. The recommendations should read as follows: "Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing."
- 4) This compound is toxic to fish, however, due to this formulation, it is not necessary to have the statement "Do not contaminate water when disposing of equipment rinse water".

Enclosed, please find a copy of your most recently submitted label stamped "Accepted with Comments." Please submit two (2) copies of your final printed label before you release the product for shipment. I'll be happy to answer any questions you may have regarding this issue.

Sincerely,

George LaRocca

50 LB NET WEIGHT 22.7 KG

"THE ULTIMATE IN MINERAL - VITAMIN NUTRITION" MANUFACTURING FOR LIVESTOCK

ENPROAL® FLY CONTROL BLOCK WITH RABON® ORAL LARVICIDE

with COMMENTS in EPA Letter Dated

TAKE TIME

OBSERVE LABEL DIRECTIONS

AUG 20 1999

Under the Federal Insecticide, Fungicide, and Rodenticide Act amended, for the pesticide registered under EPA Reg. No. 40833-12

To prevent the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle. To prevent the development of house flies and stable flies in the manure of pastured horses.

Table with 2 columns: ACTIVE INGREDIENT, By Weight. Includes Tetrachlorvinphos and Inert Ingredients.

BON® Insecticide - Contains 1.35 g RABON® PER POUND. RABON® is the registered trademark of Shell Oil Company.

GUARANTEED ANALYSIS:

Table listing nutritional components like Crude Protein, Crude Fat, Calcium, etc., with their respective percentages and values.

FEED INGREDIENTS:

Carle molasses, cottonseed meal, magnesium oxide, salt, defluorinated phosphate, magnesium sulfate, potassium sulfate, zinc oxide, iron carbonate, manganous oxide, sodium selenite, calcium carbonate, calcium iodate, cobalt carbonate, vitamin A supplement, D-activated animal sterol (source of vitamin D-3) and vitamin E supplement.

KEEP OUT OF REACH OF CHILDREN CAUTION SEE BELOW FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS CAUTION

This product may cause skin sensitization reactions in certain individuals. Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply to any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in original container only and in a dry place inaccessible to children and pets.

CONTAINER DISPOSAL: Completely empty container. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not to be used on horses destined for slaughter. Provide one block per 5-8 head of cattle or horses. Add an additional block when each block has been one-half consumed.

ENPROAL® FLY CONTROL BLOCK with RABON® may be fed to slaughter and to lactating dairy cows.

ENPROAL® FLY CONTROL BLOCK with RABON® prevents the development of horn flies, face flies, house flies and stable flies in the manure of treated cattle and prevents the development of house flies and stable flies in the manure of treated horses.

Supplemental fly control measures may be needed in and around cattle and horse lots and buildings to control adult house flies and stable flies which can breed not only in manure, but in other decaying vegetable matter or silage on the premises.

In order to achieve optimum fly control, ENPROAL® FLY CONTROL BLOCK with RABON® should be used in conjunction with other good management and sanitation practices.

CAUTION

Follow feeding directions. When this product is consumed as directed, it will provide 0.3 PPM of Selenium (Se). For specific recommendations on a complete supplement program, contact V.M.S., Department of Nutrition.
