Water Based Level 1 Aerosol

No CFCs, Contains No CFCs Which Deplete The Ozone Layer

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use in and around electrical equipment due to the possibility of shock hazard.

Indoors

Shake Twice Only Before Use. Hold Can Upright. Apply in Short Bursts.

To Kill Flies, Mosquitoes, Small Flying Moths and Gnats: Before spraying cover exposed food and utensils. Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Thoroughly ventilate room before re-entry. Keep pets out of room until product has dried. Sweep up and throw away fallen insects.

Outdoors

Fast Acting Protecting Covering Blanketing Foam

Shake twice only before using. Hold can upright. Apply in short bursts. [Do not use inside the home.] Do not use on plastic, foam, asphalt roofing shingles, vinyl siding or auto paint. Damage may occur.

Vinyl Siding – Please Read Carefully: Enforcer House & Garden Bug Killer is a water based product. During spray application to nest, if inadvertent contact to vinyl siding occurs, rinse immediately with water.

To Kill Ornamental Plant Pests such as Aphids, Leafhoppers, Lacebugs, Whiteflies, Spiders, Mites, Japanese Beetles, Mealy Bugs, Caterpillars, Box Elder Bugs and Eastern Tent Caterpillars: General: When sprayed directly on insects, this spray will kill the listed insects. Exercise caution when spraying new tender growth on young plants.

When spraying, hold can 18-24 inches from plant.

For best results, spray in the evening or on a cloudy day when air is still. Do not spray when temperatures exceed 90° F. Lightly mist the plants, using a slow sweeping motion. Do not wet foliage with spray. If spray accidentally contacts foliage or siding, immediately wash with water. Spray rows at the rate of 1 foot per second. For heavy growth, spray both sides of row. Repeat as needed.

To Kill Wasps: Apply at dusk or early morning when insects are least active. Hold can upright. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under eaves, chimneys, cracks or crevices.

To Kill Yellow Jackets: Yellow Jackets make their nests in the ground, dead tree stumps, railroad ties, walls or similar structures. During daylight hours, watch them closely to determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Empty entire can down hole from a close enough distance to direct 100% of spray into hole.

To Kill Hornets: Unless you can clearly see the opening at the bottom of the hornets' nest, never use a hornet spray (on the nest) as hornets may escape and attack you. Hornets usually make their nests in trees, shrubs and under eaves. During daylight hours, determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Direct form spray into entrance hole. As hornets fall out continue spraying until no more are visible or the can is empty. Immediately leave area.

Storage and Disposal

Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat, open flame or other sources of ignition. **Disposal:** Do not incinerate or puncture! If Empty: Place in trash or offer for recycling if available. If Partly Filled: Contact your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing. Thoroughly wash with soap and water after use. Do not contaminate food or feedstuffs. Do not use in commercial food processing, storage, preparation or serving areas. In the home, when used indoors, cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying.

First Aid

If Swallowed	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor for treatment advice. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give any liquid to person. • Do not give anything by mouth to an unconscious person.
If Inhaled	<ul style="list-style-type: none"> • Move person to fresh air • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by

	mouth-to-mouth if possible. • Call a poison control center or doctor for further treatment advice.
If on Skin or Clothing	• Take off contaminated clothing. • Immediately rinse skin with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in Eyes	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-800-xxx-xxxx for emergency medical treatment information.]	
Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.	

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}

If in the event of an animal-related emergency, call the national Animal Poison Control Center at 1-800-345-4735.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion. Do not use in or around electrical equipment due to the possibility of shock hazard.

Environmental Hazards

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.
