SEP 13 2013

Subject: Amended Reregistration Label  
Product Name: Enforcer House & Garden Bug Killer  
EPA Registration Number: 40849-4  
EPA Decision Number: 436031, 427107

Dear Ms. Morris:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the tetramethrin and sumithrin REDs, and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself, and can be added by non-notification per PRN 98-10.

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any CSFs other than those listed below are superseded.

- Basic CSF dated >> 10/18/12
- Alternate CSF #1 dated >> 10/17/12

A copy of your label is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be

subject to cancellation in accordance with FIFRA sec. 6(e).

Please note that, should you wish to add/retain a reference to the company's website on your label, the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under section 12 (a)(1)(E) of FIFRA. 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not be substantially different from those claims approved through the registration process. Therefore, should the Agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially different from the EPA-approved registration, the website will be referred to EPA's Office of Enforcement and Compliance Assurance (OECA). As an alternative, you may refer consumers to the company's phone number or e-mail address.

If you have any questions about this letter, please contact Gene Benbow at 703-347-0235 or [benbow.gene@epa.gov](mailto:benbow.gene@epa.gov).

Sincerely,

Richard J. Gebken  
Product Manager (10)  
Insecticide Branch  
Registration Division (7504P)

# ENFORCER® HOUSE & GARDEN BUG KILLER

[ENFORCER WASP AND YELLOW JACKET FOAM V]  
[ENFORCER WASP AND HORNET FOAM V] [ENFORCER FLYING INSECT KILLER III]  
[ENFORCER MOSQUITO KILLER INDOOR AND OUTDOOR FOGGER]

(Note to Reviewer: the following bulleted statements are optional marketing text.)

- For [Use] [Indoors] & [Outdoors]
- Kills Mosquitoes
- Kills Spiders
- Kills biting and stinging insects
- [Also] Kills: Flies, Gnats, Box Elder Bugs and Asian Lady Beetles
- Kills Common Plant Pests on Ornamentals
- Kills Flies, Mosquitoes, Gnats, Box Elder Bugs and Small Flying Moths
- Kills Wasps, Hornets and Yellow Jackets
- 33% More Free!
- Blanketing Foam
- Fast Acting
- Protecting
- Covering
- Jet Blast 22 Ft. Range!
- 22 Ft. Blast!
- 8 Hour control against West Nile virus infected mosquitoes
- 8 Hour protection against mosquitoes

### ACTIVE INGREDIENTS:

Tetramethrin.....	0.2%
Sumithrin.....	0.2%
<b>INERT INGREDIENTS:</b> .....	<b>99.6%</b>
Total.....	100.00%

## KEEP OUT OF REACH OF CHILDREN CAUTION

See [back] [side] [left] [right] panel for additional precautionary statements.

Net Weight: 1 lb (454 g)

{Back Panel}

[Water Based] [Level 1 Aerosol]  
[No CFCs, Contains No CFCs Which Deplete The Ozone Layer]

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
Do not use in and around electrical equipment due to the possibility of shock hazard.

### USE RESTRICTIONS

- Do not enter or allow others to enter treated areas until sprays have dried.
- Do not allow people or pets to enter treated areas until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.
- Remove pets, birds, and cover fish aquariums and ornamental fish ponds before spraying, and turn aquarium systems off.
- Do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

### INDOORS

**Shake Twice Only Before Use. Hold Can Upright. Apply in Short Bursts.**

**To Kill Flies, Mosquitoes, Small Flying Moths and Gnats:** Before spraying cover exposed food and utensils. Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for

4/5

average room. Keep room closed for 15 minutes after spraying. Thoroughly ventilate room before re-entry. Keep pets out of room until product has dried. Sweep up and throw away fallen insects.

### OUTDOORS

[Fast Acting Protecting Covering Blanketing Foam]

Shake twice only before using. Hold can upright. Apply in short bursts. [Do not use inside the home.] Do not use on plastic, foam, asphalt roofing shingles, vinyl siding or auto paint. Damage may occur.

**Vinyl Siding – Please Read Carefully:** Enforcer House & Garden Bug Killer is a water based product. During spray application to nest, if inadvertent contact to vinyl siding occurs, rinse immediately with water.

**To Kill Ornamental Plant Pests such as Aphids, Leafhoppers, Lacebugs, Whiteflies, Spiders, Mites, Japanese Beetles, Asian Lady Beetles, Mealy Bugs, Caterpillars, Box Elder Bugs and Eastern Tent Caterpillars:** General: When sprayed directly on insects, this spray will kill the listed insects. Exercise caution when spraying new tender growth on young plants.

**When spraying, hold can 18-24 inches from plant.**

For best results, spray in the evening or on a cloudy day when air is still. Do not spray when temperatures exceed 90° F. Lightly mist the plants, using a slow sweeping motion. Do not wet foliage with spray. If spray accidentally contacts foliage or siding, immediately wash with water. Spray rows at the rate of 1 foot per second. For heavy growth, spray both sides of row. Repeat as needed.

**To Kill Wasps:** Apply at dusk or early morning when insects are least active. Hold can upright. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under eaves, chimneys, cracks or crevices.

**To Kill Yellow Jackets:** Yellow Jackets make their nests in the ground, dead tree stumps, railroad ties, walls or similar structures. During daylight hours, watch them closely to determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Spray entire can down hole from a close enough distance to direct 100% of spray into hole.

**To Kill Hornets:** Unless you can clearly see the opening at the bottom of the hornets' nest, never use a hornet spray (on the nest) as hornets may escape and attack you. Hornets usually make their nests in trees, shrubs and under eaves. During daylight hours, determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Direct form spray into entrance hole. As hornets fall out continue spraying until no more are visible or the can is empty. Immediately leave area.

### STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat, open flame or other sources of ignition. Do not incinerate or puncture!

**DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans & Domestic Animals

**CAUTION:** Harmful if swallowed, inhaled or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing vapors or mists. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

### FIRST AID

**IF SWALLOWED:** Immediately call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give any liquid to person. Do not give anything by mouth to an unconscious person.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-877-541-2016 for emergency medical treatment information.]

S/S

If in the event of an animal-related emergency, call the national Animal Poison Control Center at 1-800-345-4735.

**Physical or Chemical Hazards**

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion. Do not apply this product around electrical equipment due to the possibility of shock hazard.

**Environmental Hazards**

This product is highly toxic fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm rains, drainage ditches, gutters or surface water. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treated areas.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

[Products must bear a batch code. This is a lot number or other code used by the registrant or producer to identify the batch of the pesticide product distributed and sold.]
