P.O. Box 2220
Greeley, Co 80632

Dear Ms. Davis:

Subject: Draft Labeling and Flash Point/Flame Extension Testing
Enforcer Fire Ant Killer
EPA Registration No. 40849-13
Your Application Dated November 22, 1989

The amendment referred to above, submit in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the following changes indicated below prior to release for shipment of product bearing the amended labeling.

Please provide the flash point of the product with the propellant on the Confidential Statement of Formula. The Agency is currently reevaluating the product chemistry guidelines and expect to revise this data requirement in the near future. In the interim, however, the Agency is evaluating the text of flammability statements on a case-by-case basis. Due to the presence of a highly flammable component in this product, the Agency is recommending the Physical/Chemical Hazards paragraph below:

Extremely flammable. Contents under pressure. Keep away from fire, sparks or heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

FIRE ANT KILLER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use in yards, parks, playgrounds, woodlands and golf courses. For outdoor use only.

Do not use until you have thoroughly read instructions below.

DO NOT DISTURB MOUND PRIOR TO TREATMENT

1. **IMPORTANT:** When attaching probe make sure spray head is pointed down.
2. Attach probe to aerosol can by screwing threaded part of rod into top of can. Once rod is completely seated, can will start spraying. Untwist until spraying stops.
3. With probe attached to can (but not spraying) insert rod 3" into top of mound.
4. Activate can by twisting rod into can.
5. Drive rod into mound activating continuously until resistance is felt indicating bottom of nest.
6. Untwist rod and remove.

TREAT ALL MOUNDS IN VICINITY

For best results apply in early morning or evening when ants are least active.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat, open flame or other sources of ignition. **Disposal:** Replace cap, wrap container and probe in several layers of newspaper and discard in trash collection. Do not incinerate or puncture container.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or inhaled. Avoid breathing vapors. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and warm water after handling.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Contact a physician or Poison Control Center immediately. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. Contact a physician if necessary. **If In Eyes:** Immediately flush eyes with plenty of water. Contact a physician if irritation persists. **If On Skin:** Immediately remove contaminated clothing. Wash affected area of skin with soap and warm water. Contact a physician if irritation persists. Wash clothing prior to reuse.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from fire, sparks or open flame. Do not smoke while using this product. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. Incineration of container may cause explosion.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not contaminate water by disposal of wastes.
