**Diazinon Granules**

NOTIFICATION  
APR 24 1997

Contains  
**5% Diazinon**  
Ready-To-Use  
Granules

<b>ACTIVE INGREDIENT:</b>	
Diazinon: 0,0-Diethyl 0-(2-Isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate	5%
<b>INERT INGREDIENTS</b>	95%
<b>TOTAL</b>	100%

**FOR OUTDOOR USE ON THE HOME LAWN ONLY**  
**THIS PRODUCT MUST NOT BE USED ON GOLF COURSES AND SOG FARMS.**

**Keep Out of Reach of Children**  
**CAUTION**

See Back Panel For Additional Precautionary Statements.

**NET WEIGHT 1 Lb. (16 Oz. / 454 g)**

**ENFORCER®**  
**ANT KILL DIAZINON GRANULES**

In lawns ENFORCER® ANT KILL DIAZINON GRANULES Kills:  
Ants, Brown dog ticks, Clover mites, Crickets, Digger wasps, Earwigs, Fire ants\*, Fleas, Millipedes, Sowbugs (Pillbugs), Springtails.  
\*Aids in control.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**LAWN SPOT TREATMENT**

**Ants:** Apply 1-1/2 teaspoons of Ant Kill Diazinon Granules over and around each ant hill.  
**Fire Ants:** To aid in the control of fire ants in lawns and other outdoor home recreation areas, apply 1/2 cup over, and 2 feet around, each fire ant mound. Immediately after application, water-in thoroughly. Apply gently to avoid disturbing ants. Use of high pressure watering equipment may disturb the ants and cause migration, reducing product effectiveness. A minimum of 1 gallon of water should be applied to each mound area. Reapply as necessary. **NOTE:** For best results, apply in cool weather, 65-80°F, or in early morning or late evening hours. Works within 24 hours. No waiting for days or weeks. Treat new mounds as they appear.  
**Digger Wasps:** Apply 1-1/2 teaspoons of Ant Kill Diazinon Granules in and around each nest opening. Apply at dusk when wasps are not active.

**Band Treatment Around House Foundation**

The following pests are commonly found around or near foundations and may enter the house: Ants, Brown dog ticks, Clover mites, Crickets, Earwigs, Fleas, Millipedes, Sowbugs (Pillbugs) and Springtails (*Collembola*). Apply a 2-foot band of Ant Kill Diazinon Granules next to the house foundation. Distribute granules uniformly, using a rate of 3.2 oz. for each 100 sq. ft. of area (5' x 20') treated. If necessary, repeat application at 3 week intervals.

**STORAGE AND DISPOSAL**

**Storage:** Store in original container in a cool, dry well-ventilated area. Store product in an area inaccessible to children and domestic animals. Do not store near fertilizers, herbicides, other insecticides, seeds, food or feed.

**Pesticide Disposal:** Securely wrap original container in several layers of newspaper and discard in trash.

**Container Disposal:** Do not reuse empty container. Discard container in trash. For minor spills, leaks, etc., follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during cleanup and disposal of wastes.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

**CAUTION:** Harmful if swallowed or absorbed through skin. Causes moderate eye injury. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Do not store near food or feed products. Food utensils, such as spoons or measuring cups, must not be used for food purposes after use in measuring pesticides. Do not contaminate ornamental fish ponds. Do not allow children or pets on treated areas until granules have been watered into the soil and the grass or soil is dry.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Call a physician immediately. Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing.  
**IF INHALED:** Remove victim to fresh air and apply artificial respiration, if indicated.  
**IF ON SKIN:** Wash promptly with soap and water. Rinse thoroughly. Get medical attention.  
**IF IN EYES:** Rinse eyes with plenty of water and call a physician immediately.  
**NOTE TO PHYSICIAN:** This product is an organophosphate insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

**ENVIRONMENTAL HAZARDS**

This product is highly toxic to birds, fish and other wildlife. Birds, especially waterfowl (ducks or geese), feeding or drinking on treated areas may be killed. Because of the migratory habits of certain Atlantic Coast waterfowl, do not apply this product to lawns in Nassau County, New York, between November 1 and May 20. Do not exceed maximum permitted label rates. Application rates above those recommended significantly increase potential hazards to birds. Avoid overlapping granules. Granules that are spilled or are visible on soil surfaces should be covered with soil or thoroughly mixed into the soil.

For lawns, follow all watering instructions in the directions for use, however, stop watering before puddling occurs. For lawns, do not apply this product to sites occupied by waterfowl, or within 75 ft. of any body of water, such as ponds or lakes, which may attract waterfowl. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply directly to water. Runoff may be hazardous to fish and other aquatic organisms in neighboring areas.

Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab and other aquatic life are important resources. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.
