Greeley, Co 80632-2220

Dear Ms. Davis:

Subject: Amendment - Reduction in Application Rate  
Enforcer Flea and Tick Spray for Pets II  
EPA Registration No. 40849-34  
Your Application Dated January 4, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

Since this a reduction in the amount of pesticide applied to large dogs, we are accepting this change now on a conditional basis. The Agency will review its efficacy files for this type of product to determine if such a change would affect the performance of the product or current label claims. We will notify you of the results of our review when completed.

You should be aware that this type of amendment does not qualify as a Notification under CFR 40 § 152.46 since it involves a change in directions for use. In the future, submit such a request as an amendment action to be reviewed by the Agency and not as a Notification which does not require an Agency response.

Sincerely,

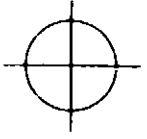

George T. LaRocca  
Product Manager 15  
Insecticide-Rodenticide Branch  
Registration Division (H7505C)

**FLEA & TICK SPRAY FOR DOGS II**

**DIRECTIONS FOR USE**

Do Not Use This Product On Cats Or Kittens

**HOLD CONTAINER UPRIGHT - SHAKE WELL BEFORE USING**

**DOGS:** Spray the animal from a distance of 8-12 inches. Start spraying at the tail and work forward, making sure the animal's entire body is covered, including the legs and under the belly. If the animal is difficult to spray, separate the skin. The spray should penetrate the fur to the skin. Spray the face, ears, and genital area as needed. Allow the animal to shake off the spray. The product is effective for up to 2 weeks on dogs and up to 1 week on puppies.

**PUPPIES:** Spray the puppy from a distance of 8-12 inches. Start spraying at the tail and work forward, making sure the puppy's entire body is covered, including the legs and under the belly. If the puppy is difficult to spray, separate the skin. The spray should penetrate the fur to the skin. Spray the face, ears, and genital area as needed. Allow the puppy to shake off the spray. The product is effective for up to 1 week on puppies.

**PET SLEEPING QUARTERS:** Spray the sleeping quarters from a distance of 8-12 inches. Start spraying at the corners and work toward the center. The spray should penetrate the fur to the skin. Spray the face, ears, and genital area as needed. Allow the quarters to shake off the spray. The product is effective for up to 2 weeks on dogs and up to 1 week on puppies.

**STORAGE:** Store in original container. Do not store in a warm, humid area. Do not store in a metal container. Do not store in a plastic container. Do not store in a glass container.

**DISPOSAL:** Do not pour into sewer. Do not pour into water. Do not pour into trash. Do not pour into fire.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS & DOMESTIC ANIMALS**  
**CAUTION:** Irritant. Avoid breathing vapors. Avoid contact with skin. Avoid contact with eyes. Avoid contact with mucous membranes. Avoid contact with clothing. Avoid contact with bedding. Avoid contact with food. Avoid contact with water. Avoid contact with fire.

**STATEMENT OF PRACTICAL TREATMENT**  
 If inhaled: Remove person to fresh air. If breathing is difficult, give artificial respiration. If swallowed: Give large amounts of water. If on skin: Wash with plenty of soap and water. If in eyes: Wash with plenty of water. If on clothing: Wash with plenty of water.
