[Contains: [2] [3] [6] - 5 Oz. (142 g.) Foggers]**

{Back Panel}

**Water Based      Level 1 Aerosol**

**SHAKE WELL BEFORE USE  
DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product kills Black Carpet Beetles, Centipedes, Cockroaches, Crickets, Fleas, Houseflies, Mosquitoes, Pill Bugs, Rice Weevils, Saw-toothed Grain Beetles, Silverfish, Small Flying Moths, Spiders, Ticks and Wasps. .

Cover exposed food, dishes and food-handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Close doors and windows. . Use one fogger for each 5,000 cubic feet of unobstructed area. Do not remain in the area during treatment and thoroughly ventilate before re-entry.

**DO NOT** use more than one fogger per room. **DO NOT** use in small enclosed spaces such as closets, cabinets or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller; instead allow fog to enter from other rooms. **Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.**

**TO OPERATE VALVE:** Place several layers of newspaper or a pad on a stand or table in the center of the room. Be sure to cover entire surface of stand or table to prevent damage. Point valve opening away from face and eyes when releasing. For automatic discharge, lock valve in open position by pressing valve button all the way down, hooking the catch. Then place fogger on stand or table (in center of room) with valve locked open. Leave building at once and keep building closed for four hours before airing out. Open all doors and windows and allow to air for 30 minutes before reoccupying. Repeat treatment in two weeks or when necessary.

**To Kill Fleas and Ticks:** Destroy and replace pet's old bedding. Use product as above. Do not use this product on pets. Prior to re-entry, treat pets with an **ENFORCER** flea and tick control product registered for use on pets. Repeat as necessary to bring infestation under control.

**Foggers alone will not control fleas and ticks.** To control fleas and ticks, simultaneously treat the pet and its inside and outside living areas. [To effectively control the fleas you must treat your pet, home and yard.] If you treat only your home (or only your pet) the treatment will not be effective and the fleas and ticks will return. To kill flea eggs, use a registered Enforcer product containing an insect growth regulator.

**Storage:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat, sparks, flames and other sources of ignition. **Disposal:** Do not incinerate or puncture! If Empty: Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-Cleanup for disposal instructions.

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans & Domestic Animals**

**CAUTION:** May be harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. Thoroughly wash with soap and water after use. Avoid contamination of food or feedstuffs. Do not use in commercial food processing or preparation areas. In the home, cover all food processing surfaces and utensils during treatment or thoroughly washed before use. Cover exposed food. Remove pets, birds and cover fish aquariums before spraying.

**First Aid**

<b>If Swallowed</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give any liquid to the person.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
