**SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.**

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### FOR SPACE SPRAY

**To Kill Flies, Gnats, Mosquitoes, Small Flying Moths and Wasps:** Before spraying, cover exposed food and utensils. Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Thoroughly ventilate room thoroughly before reentry. Sweep up and throw away fallen insects.

**For Volumetric Treatment for Void Areas (Attics, false ceilings, crawl spaces, wall and equipment voids):** For exposed stages of ants, beetles, centipedes, cockroaches, crickets, millipedes, silverfish, sowbugs and spiders harboring in voids, calculate void volume and treat at a rate of 10 seconds per 1000 cubic feet. Repeat treatment as necessary.

### FOR SPOT TREATMENT

**To Kill Ants, Cockroaches and Crickets:** Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Pay special attention to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.

**To Kill Exposed Stages of Confused Flour Beetles, Rice Weevils and Saw-toothed Grain Beetles:** Find and discard infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects. After shelves have dried, place clean paper on the shelves and return packages. Repeat as necessary.

**To Kill Centipedes, Firebrats, Silverfish, Sowbugs and Spiders:** Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Pay Special attention to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

**To Kill Brown Dog Ticks and Fleas:** Remove and discard pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local floor areas. Repeat as necessary. **DO NOT SPRAY ANIMALS WITH THIS PRODUCT.** Remove and replace old bedding with clean, fresh bedding after treatment. Simultaneously treat pets with a flea and tick control product registered for use on pets before allowing them to enter treated area.

**To Kill Bed Bugs:** Take bed apart and treat cracks, joints and interior of framework. Treat mattresses and box springs; especially tufts, folds and edges. Also treat picture frames, moldings and all cracks and crevices in the room.

**To Kill Lice and Lice Eggs:** Do not use on humans or animals. Treat an inconspicuous area to test for possible staining or discoloration. Inspect after drying, then treat entire area. Hold container upright with actuator opening directed away from you and apply from a distance of 18 inches. Treat at the rate of 1 second per 2 square feet. Treat all mattresses, furniture or similar objects that cannot be laundered or dry cleaned. Do not use treated article until dry. Repeat treatment as necessary.

**To Kill House Dust Mites:** Do not use on humans or animals. Treat at the rate of 1 second per 8 square feet. Treat an inconspicuous area to test for possible staining or discoloration. Inspect this area after drying, then treat infested areas only if staining or discoloration has not occurred. Hold container upright with actuator opening directed away from you and apply from a distance of 18 inches. Treat all mattresses, box springs, upholstery, carpet, rugs or other infested objects that cannot be laundered or dry cleaned. Do not use treated article is dry. Repeat treatment as necessary. Vacuum the entire room 24 to 48 hours after treating, including box springs, mattresses, carpeting, drapes, furnace and air vents to remove all dust from treated area. Clean carpeted areas when possible by vacuuming, then shampooing. For best results enclose mattress in plastic cover.

**To Kill Clothes Moths and Carpet Beetles:** Locate source of infestation. Treat nearby cracks and crevices and perform general volumetric treatment of infested area. To protect woolens and other keratin-containing materials, brush clean, then air out. Before treating entire article, treat a small hidden area of fabric to determine if staining will occur. Treat thoroughly by holding dispenser at least 17 inches from garment. Put treated articles in a darkened closet or other darkened storage area such as cedar chests, storage drawers or sealable plastic fabric bags. For best protection, clean and treat inside of closets or storage areas by spraying one second per 20 square feet before putting treated materials away. Repeat treatment every six months or as needed. Dry clean treated clothes before wearing.

**To Kill Wasps and Bees:** For treatment of these pests inside structural voids, locate all insect entrances. Close all but one opening. Determine size of void. Into remaining opening inject 5 to 10 seconds of product per three cubic feet of void. For best results, treat at dusk or later.

**To Kill Mud Dauber and Sap Nests:** Apply directly on insects and their nests from approximately 18 inches. Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Disperse into hiding and breeding places contacting as many insects as possible.

#### Storage and Disposal

**Storage:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Keep away from heat, open flame or other sources of ignition. Do not puncture or incinerate. If Empty: Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-Cleanup.

**PRECAUTIONARY STATEMENTS**  
**Hazards to Humans & Domestic Animals**

**CAUTION:** Harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. Thoroughly wash with soap and water after use. Avoid contamination of food, food processing surfaces or feedstuffs. Do not use in commercial food processing, preparation, storage or serving areas. In the home, cover all food processing surfaces and utensils, remove during treatment or thoroughly wash with an effective cleaning compound followed by a potable water rinse prior to use. Cover or remove exposed food. Remove pets, birds and cover fish aquariums before spraying.

**First Aid**

<b>If Swallowed</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If Inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
<b>If on Skin or Clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Immediately rinse skin with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If in Eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-800-xxx-xxxx for emergency medical treatment information.]	

**If in the event of an animal-related emergency, call the national Animal Poison Control Center at 1-800-345-4735.**

**Physical or Chemical Hazards**

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration may cause explosion. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used.}
