OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

JUL - 1 2009

Ms. Kellie Dixon, Chemist  
Enforcer Products  
A Division of Acuity Specialty Products Group, Inc.  
1310 Seaboard Industrial Blvd.  
Atlanta, GA 30318

Subject: Label Notifications for Pesticide Registration Notices 2007-4

Dear Ms. Dixon,

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated January 30, 2009 for the following products:

<b>Enforcer Wasp &amp; Hornet Killer XI</b>	<b>EPA Registration Number 40849-52</b>
<b>Enforcer Flea Spray for Homes</b>	<b>EPA Registration Number 40849-53</b>
<b>Enforcer Flea Spray for Carpets &amp; Furniture XX</b>	<b>EPA Registration Number 40849-55</b>

The Registration Division (RD) has conducted its review of these requests for their applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN 2007-4. The labels submitted with the applications have been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Steve Schaible of my staff at 703-308-9362.

Sincerely,

Handwritten signature of Rachel C. Holloman in cursive script.

Linda Arrington

**Keep Out of Reach of Children  
CAUTION  
See back panel for additional precautionary statements.**

**Net Contents: 1 Gal. (3.785 L.)**

**Water Based**

**Shake Well Before Use**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Enforcer® Flea Spray for Homes** kills fleas and ticks, and contains a unique combination of ingredients that kills adult fleas, as well as flea eggs and larvae. One of these ingredients, FGR®, kills fleas by preventing their development into the adult biting stage. It reaches fleas hidden in carpets, rugs, drapes, upholstery, pet bedding and floor cracks. This product ultimately protects your home from reinfestation while protecting your family and pets from bites. A treatment with this spray provides continuous flea protection for up to 210 days [7 months], and leaves no objectionable odor or sticky mess. When used as directed, this product will not stain furnishings or carpeting.

**Fleas:** . Adjust spray nozzle to create a fine spray. Treat all carpeted areas and all baseboards of hard surfaced floors. Evenly apply a fine mist or spray to carpets, rugs, drapes and all surfaces of upholstered furniture by using a wide, sweeping motion. Also spray floors underneath furniture, sofas, chairs and beds. Do not saturate surfaces. Treat pet bedding, a primary hiding place for fleas. Retreat as necessary. **Do not spray humans or pets with this product.** Use an Enforcer product registered for flea control on pets in conjunction with this treatment. Do not reenter treated areas until completely dry.

The flea pupae (cocoon) stage is not affected by this product because the cocoon is very difficult to penetrate. Repeat treatments and daily vacuuming to kill fleas newly emerged from the pupae stage

Use in homes, garages, attics, apartments and hotels. One container will treat approximately 1,595 square feet (or eleven rooms measuring 10' by 14½').

To kill other crawling bugs (such as ticks, ants, spiders, roaches, carpet beetles and silverfish) spray directly on pests.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION:** Harmful if inhaled or absorbed through skin. Do not breath spray mist. Avoid contact with skin, eyes or clothing. Thoroughly wash with soap and water after use . Do not contaminate food or foodstuffs. Do not use in commercial food processing, preparation, storage or serving areas. In the home, cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover or remove exposed food. Remove pets, birds and cover fish aquariums before spraying.

**First Aid**

<b>If Swallowed</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>If Inhaled</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.</li> <li>• Call a poison control center or doctor for further treatment advice.</li> </ul>
<b>If on Skin or Clothing</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Immediately rinse skin with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>If in Eyes</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-800-xxx-xxxx for emergency medical treatment information.]

{Note: The First Aid statements' grid format will be used if market label space permits; otherwise a paragraph format will be used}
