<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.

NOTIFICATION
MAR 21 1996

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Submit label revision notification pursuant to PR Notice 95-2.
This notification is consistent with the provisions of PR Notice 95-2 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 95-2 and 40 CFR 152.46 this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

MAKES 1 GALLON KILLS Flea Larvae and Flea Eggs

ENFORCER® CONCENTRATE FOR FLEAS^{XX}

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. Wash with soap and warm water after use. Avoid contamination of food or food-stuffs.

Statement of Practical Treatment

If Swallowed: Call a physician or poison control center immediately. Do not induce vomiting. **If in Eyes:** Flush with plenty of water. Get medical attention if irritation persists. **If on Skin or Clothing:** Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. Contact a physician if warranted.

Physical or Chemical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Enforcer Concentrate for Fleas XX prevents preadult fleas from developing into adult fleas. Flea eggs deposited on, and larvae crawling onto, treated areas will not develop into adult fleas. Existing or newly introduced adult fleas and flea pupae are not affected, however, their offspring will be. To control newly introduced adult fleas, treat with an Enforcer flea adulticide product.

For best results, use this concentrate prior to flea season. When applied to surfaces where fleas are found, such as carpets, upholstered furniture and pet sleeping areas, this product can prevent adult flea emergence for up to 7 months (210 days).

DO NOT TREAT HUMANS OR PETS WITH THIS PRODUCT. Use an Enforcer product registered for flea control on pets in conjunction with this concentrate to prevent the introduction of adult fleas indoors.

Method and Rate of Application: Partially fill the mixing container with water, add 1 ounce of this concentrate. Shake well, then fill container to a final volume of one gallon. **Shake before each use.** Apply at a rate of 1 gallon of diluted solution per 1,500 sq. ft. of surface area with any low pressure sprayer typically used for indoor applications. Treat all areas which may harbor fleas, including carpets, furniture, pet sleeping areas and throw rugs. Treat under cushions of upholstered furniture. Avoid contact with treated surfaces until dry.

STORAGE: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat. **DISPOSAL:** Do not reuse empty container. Wrap in newspaper and discard in trash.
