Ms. Kim Davis
RegWest Company
P.O. Box 2220
Greeley, CO 80632-2220

Dear Ms. Davis:

Subject: Label Amendment- PR Notices 97-5 and 97-6
Enforcer Flea Fogger XX
EPA Registration Number 40849-56
Your submission dated May 7, 1998

This amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(7)(a), is acceptable, provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

a. Change "Federally Inspected (USDA) ..." to "Federally Inspected ...".

b. Under directions for use delete the statement "Use additional units for remote rooms or where free flow etc.". This statement conflicts with the directions not to use more than one unit per room.

c. Replace the paragraph beginning "Fogger alone will not control flea infestations xxx etc." to read "To minimize reinfestation treat the pet and its inside and outside living areas also. You should treat your pet, home and yard.".

3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca

ENFORCER_o FLEA FOGGER XX**LEVEL 1 AEROSOL WATER BASED WATER DROP GRAPHIC FORMULATION****PRECAUTIONARY STATEMENTS****Hazards to Humans & Domestic Animals**

CAUTION: Harmful if swallowed or absorbed through skin. Do not breathe vapors or spray mist. Avoid contact with skin or eyes. Avoid contamination of food or foodstuffs. Remove pets, birds and cover fish aquariums before spraying.

First Aid

If Swallowed: Call a physician or poison control center immediately. Do not induce vomiting. **If in Eyes:** Flush with plenty of water. Get medical attention if irritation persists. **If on Skin or Clothing:** Remove contaminated clothing and wash before reuse. Wash skin with soap and warm water. Get medical attention if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. Contact a physician if warranted.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause fire or explosion if not used properly. Follow the *Directions for Use* on this label very carefully.

<p>FLAMMABLE GRAPHIC</p>

Highly Flammable Ingredient

Environmental Hazards

Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use to kill Ants, Cockroaches, Crickets, Fleas, Houseflies, Mosquitoes, Rice Weevils, Saw-Toothed Grain Beetles, Small Flying Moths and Ticks. Prevents flea larvae maturation for up to 7 months (210 days).

SHAKE WELL BEFORE USE. KEEP CONTAINER UPRIGHT.

Cover all exposed food, dishes and food-handling equipment. Open cabinets and doors to area to be treated. Shut off fans and air conditioners. Close doors and windows. Use one unit for each 5,000 [for 5 ounce container] cubic feet of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured (such as under sofas, beds, etc.). Do not remain in the area during treatment and ventilate thoroughly before re-entry. Vacuum all carpeted areas 24 hours after treatment.

Do not use more than one fogger per room. Do not use in small, enclosed spaces, such as closets, cabinets or under counters or tables. Do not use in a room 5 ft. x 5 ft. or smaller; instead, allow fog to enter from other rooms. Turn off all ignition sources, such as pilot lights (shut off gas valves), other open flames, or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.

To operate valve: Place several layers of newspaper or a pad on a stand or table in the center of the room. Be sure to cover entire surface of stand or table to prevent damage. Point valve opening away from face and eyes when releasing. For automatic discharge, lock valve in open position by pressing valve button all the way down, hooking the catch. Then place fogger on stand or table (in center of room) with valve locked open. Leave building at once and keep building closed for four hours before airing out. To air out, open all doors and windows and allow to air for 30 minutes before reoccupying the room. Repeat treatment as necessary.

For Use in Federally Inspected (USDA) Meat and Poultry Plants: For application only in inedible product and non-processing areas, including areas such as garbage rooms, lavatories, entries, vestibules, offices, locker rooms and boiler rooms. Precautions must be taken to prevent introduction of insecticide or affected insects from entering edible product processing or storage areas. Prior to discharge, be sure to seal area (close windows and doors) and shut of ventilating systems. Items such as clothing and equipment in treatment area cannot be taken into edible product and processing areas after treatment unless thoroughly washed and rinsed after treatment. Use product as above.

5/5

To Control Ticks and Fleas: Discard pet's old bedding and replace. Use product as above. Do not use this product on pets. Prior to reentry, treat pets with an Enforcer flea and tick control product registered for use on pets.

Foggers alone will not control flea infestations. To control fleas, treat the pet and its inside and outside living areas at the same time. To effectively control fleas you must treat your pet, home and yard simultaneously.

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets and away from heat, flames and other sources of ignition. **Disposal:** Replace cap, wrap container in newspaper and dispose in trash. Do not puncture or incinerate.
