

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (H7505C)
 401 "M" St., S.W.
 Washington, D.C. 20460

Date of Issuance:
 JAN 27 1995

Number: 40849-59
 Term of Issuance: Conditional

Name of Pesticide Product:
 Enforcer Next Day
 Grass & Seed Killer
 Concentrate

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Enforcer Products, Inc.
 c/o RegWest Company
 P.O. Box 2220
 Greeley, CO 80632-2220

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Revise the EPA Registration Number to read, "EPA Reg. No. 40849-LO".

ENFORCER

NEXT DAY

GRASS & WEED KILLER CONCENTRATE

A Contact, Non-Selective Vegetation Killer
for the Control of Broadleaf Weeds and Grasses

This product contains an herbicidal chemical; when used as directed, it will kill most all forms of plant growth without damage to the soil. This product is inactivated on contact with the soil.

KILLS MOST GRASSES AND WEEDS ON CONTACT!

Makes up to 32 gallons.

Re-Seed in 48 Hours.

ACCE:
with COMPTON
In EPA Letter dated

JAN 27 1985
Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
40849-59

ACTIVE INGREDIENT:

Diquat dibromide [6,7 Dihydropyrido (1,2-a:2-1'-C)
pyrazidinium dibromide*]

INERT INGREDIENTS:

Total:

2.38%
97.62%
100.00%

*Contains 0.14 lbs. Diquat cation per gallon as 0.25 lbs. salt per gallon.

Keep Out of Reach of Children

WARNING

See back panel for additional precautionary statements.

PRECAUTIONARY STATEMENTS Hazards to Humans & Domestic Animals

WARNING: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes and clothing. Concentrate may cause skin damage. Repeated contact with skin or contact with open cuts or sores may increase the hazard associated with this product. Use waterproof gloves and a face shield or goggles when handling. Avoid breathing spray mist. Keep people and children off treated areas until spray mist has completely dried. Do not use utensils such as measuring cups or teaspoons for food purposes after use with herbicides.

Statement of Practical Treatment

If Swallowed: Call a physician or poison control center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Never induce vomiting or give anything by mouth to an unconscious or convulsing person. **If Inhaled:** Remove person to fresh air. Apply artificial respiration if indicated. Contact a physician if warranted. **If On Skin:** Immediately remove contaminated clothing and wash affected areas with soap and water. Contact a physician if irritation persists. Thoroughly wash clothing before reuse. **If In Eyes:** Flush eyes with plenty of water. Contact a physician if irritation persists.

Environmental Hazards

This product is toxic to wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. During application, avoid drift to adjacent food and forage plantings (or their crops) that might be damaged.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store in a location (preferably locked) inaccessible to children and pets. **DISPOSAL:** Do not reuse empty container; wrap in several layers of newspaper and put in trash.

1. Shake well before each use.
2. Choose the correct dilution rate according to the types of grasses or weeds to be controlled.
3. Select a method of application:

Sprinkler Can (illustration)
 Tank Sprayer (illustration)
 Trigger Sprayer (illustration)

Mix the product with water to the specified dilution rate.

4. Thoroughly wet the grasses or weeds to be controlled.
5. Undesirable weeds and grasses will begin to wilt and brown within hours.

TYPES OF WEEDS CONTROLLED	DILUTION RATE
EASY TO CONTROL WEEDS: Such as ajuga, black medic, dandelion, morningglory, oxalis and plantain (broadleaf or lanceleaf).	3 - 5 ounces per gallon of water
HARD TO CONTROL WEEDS: Such as barnyard grass, green foxtail, ground ivy, knotweed, portulacae and spotted spurge.	6 - 8 ounces per gallon of water
HARDEST TO CONTROL WEEDS: Such as crabgrass (smooth/large), goosegrass and quackgrass.	9 - 12 ounces per gallon of water

Some hard-to-control weeds may require additional treatments.

General Weed Control in Non-Crop Areas: Controls broadleaf weeds, brush and grasses by top kill of perennials and kill of annuals. Kills most every type of grass and weed on contact. This product kills through the leaves only.

General Weed Control in Shrub Areas: This product will not injure desirable plants as long as spray mist does not come in contact with the leaves of these plants. The concentrate becomes inactive on contact with soil.

General Vegetation: Controls weeds around buildings and other installations, walkways, patios, storage areas, greenhouse benches, fence lines, driveways, drainage ditches and sandtraps.

NON-CROP/NON-PLANTED AREAS: To kill above-ground weed growth around buildings, walkways, patios, beneath greenhouse benches, fence lines and driveways. For control of undesirable broadleaf and grass-type weeds, use 1/2 ounce of concentrate per gallon of water. Apply for complete coverage and thorough weed contact. Apply preferably to young growth and up to seeding of weeds. Repeat applications may be necessary to maintain control, particularly on grasses and established weeds. Avoid spray contact with foliage, food crops and ornamental plants. Re-seed in 48 hours. Do not water treated areas for 24-36 hours after application. Do not allow anyone on treated areas within 24 hours of application unless protective clothing is worn.

Helpful Hints:

1. To achieve best results, apply on a sunny day when temperature is above 60°F. Do not apply if rain is expected within 12 hours of treatment.
2. Do not spray this product on desirable plants or grasses, as injury may result. Do not apply on windy days to avoid drift to desirable plants. If contact occurs, rinse the plants with water.
3. Use a higher dilution rate (up to 12 ounces per gallon of water) for hard-to-kill grasses and weeds, such as Bermudagrass.
4. Thoroughly wash application equipment after each use.
