PRECAUTIONARY STATEMENTS**Hazards to Humans & Domestic Animals**

WARNING: Causes skin irritation and moderate eye irritation. Avoid contact with eyes. Do not get on skin or on clothing. Remove contaminated clothing and wash clothing before reuse.

Statement of Practical Treatment (First Aid)

If on Skin: Immediately remove contaminated clothing and wash affected areas with plenty of soap and water. Get medical attention. **If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. Probable mucosal damage may contraindicate the use of gastric lavage.

Environmental Hazards

This product is toxic to aquatic invertebrates. Do not apply directly to water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a location (preferably locked) inaccessible to children and pets. **Disposal:** Do not reuse empty container; wrap in several layers of newspaper and put in trash.

Precautionary Restrictions: Do not allow people or pets to touch treated plants until the sprays have dried.

Application Restrictions: Do not apply this product in a way that will contact any person or pet, either directly or through drift. Only persons applying this product may be in the area during application.

User Safety Recommendations:

- Clothing and protective equipment exposed to this product should be washed in detergent and hot water. Such items should be kept and washed separately from other laundry.
- Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Users should remove clothing immediately if pesticide gets inside; then wash thoroughly and put on clean clothing.

Partial Listing of Weeds

Annual Blue Grass, Chickweed, Crabgrass, Florida Pusley, Foxtail, Garden Spurge, Goosegrass, Henbit, Knotweed, Lambsquarter, Mayweed, Oxalis, Pigweed, Prickly Lettuce, Purslane, Puncture Vine, Redroot Pigweed, Sandspur, Shepards Purse, Sowthistle, Smartweed, St. Augustinegrass, Velvetweed, Wild Geranium and grasses which creep over, under or around lawn edging and that are grown-up through paved patios, walkways and driveways, such as Bahia Grass, Bermudagrass, Centipedegrass, St. Augustinegrass and Zyosiagrass.

1. Shake well before each use.
2. Choose the correct dilution rate according to the types of grasses or weeds to be controlled.
3. Select a method of application: sprinkler can, tank sprayer, trigger sprayer. Mix the product with water to the specified dilution rate.
4. Thoroughly wet the grasses or weeds to be controlled.
5. Undesirable weeds and grasses will begin to wilt and brown within hours.

TYPES OF WEEDS CONTROLLED	DILUTION RATE
*Above-Ground Weeds: Around buildings, walkways, patios, fence lines and driveways	½ ounce per gallon of water
Easy to Control Weeds: Such as ajuga, black medic, dandelion, morning glory, oxalis and plantain (broadleaf or lanceleaf)	3 - 5 ounces per gallon of water
Hard to Control Weeds: Such as barnyard grass, green foxtail, ground ivy, knotweed, portulaca and spotted spurge	6 - 8 ounces per gallon of water
Hardest to Control Weeds: Such as crabgrass (smooth/large), goosegrass and quackgrass	9 - 12 ounces per gallon of water

Some hard-to-control weeds may require additional treatments

*See complete instructions on side panel under Non-Crop/Non-Planted Areas.

General Weed Control in Non-Crop Areas: Controls broadleaf weeds, brush and grasses by top kill of perennials and annuals. Kill most types of grass and weed on contact. This product kills through the leaves only.

General Weed Control in Shrub Areas: This product will not injure desirable plants as long as spray mist does not come in contact with the leaves of these plants. The concentrate becomes inactive on contact with soil.

General Vegetation: Controls weeds around buildings and other installations, walkways, patios, storage areas, greenhouse benches, fence lines, driveways, drainage ditches and sandtraps.

Non-Crop/Non-Planted Areas: To kill above-ground weed growth around buildings, walkways, patios, beneath greenhouse benches, fence lines and driveways. For control of undesirable broadleaf and grass-type weeds, use 1/2 ounce of concentrate per gallon of water. Apply for complete coverage and thorough weed contact. Apply preferably to young growth and up to seedling of weeds. Repeat applications may be necessary to maintain control, particularly on grasses and established weeds. Avoid spray contact with foliage, food crops and ornamental plants. Re-seed in 48 hours. Do not water treated areas for 24-36 hours after application. Do not allow anyone on treated areas within 24 hours of application unless protective clothing is worn.

Helpful Hints:

1. To achieve best results, apply on a sunny day when temperature is above 60°F. Do not apply if rain is expected within 12 hours of treatment.
2. Do not spray this product on desirable plants or grasses, as injury may result. Do not apply on windy days to avoid drift to desirable plants. If contact occurs, rinse the plants with water.
3. Use a higher dilution rate (up to 12 ounces per gallon of water) for hard-to-kill grasses and weeds, such as Bermudagrass.
4. Thoroughly wash application equipment after each use.
