Scorcher Total  
Vegetation Killer

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Ms. Kim Davis  
REGWEST COMPANY  
P. O. Box 2220  
Greeley, CO 80632-2220

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

a. Revise the EPA Registration Number to read, "EPA Reg. No. 40849-69.

b. Under the labeling for "Ingredient" add "Contains Petroleum Distillate.

c. Under the "Statement of Practical Treatment" add "IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol".

d. The label should contain the following guidance: "May pose an aspiration pneumonia hazard".

**Scorcher™ Total Vegetation Killer**  
**Concentrate**

### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Scorcher Total Vegetation Killer concentrate will kill almost all vegetation down to the roots and prevent plant regrowth for up to one year. For use on gravel driveways, sidewalks, patios, along fence lines and curbs. DO NOT use on lawns, flower beds or vegetable gardens. Scorcher should NOT be applied over the root zones of trees or shrubs. See label diagram for root zone and drip line clarification.

DO NOT apply in sloped areas where runoff may adversely affect desirable plants.

For best results, if the soil is dry, water lightly before treatment. Apply Scorcher directly to weeds and grass. Thoroughly wet weeds but do not soak as runoff may occur. Two days following application, lightly water the treated area. This will aid in the killing preventing of weeds through root absorption.

### **WHEN TO APPLY**

For barren soil and to prevent plant growth, Scorcher can be applied anytime. For best results, apply to bare ground or when growth is beginning in spring. If weeds are taller than 4 inches, cut weeds to 1 inch height. In areas of heavy rainfall, repeat applications may be required every six months.

### HOW TO APPLY

Apply ONLY with a sprinkling can. Do not use a hose-end sprayer. If applying this product in remote locations, where possible drifting is NOT a concern, then a plastic tank sprayer may be used.

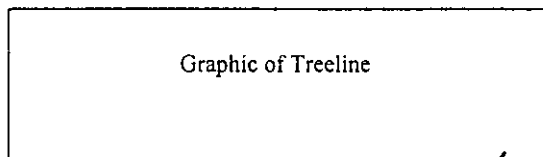

### DILUTION TABLE

AMOUNT OF SCORCHER CONCENTRATE	WATER TO ADD	COVERAGE
1 Quart	1 Gallon Plus 1 Pint	125 Sq. Ft.
40 Oz. (Bonus Size)	1 Gallon Plus 52 Oz.	156 Sq. Ft.
1/2 Gallon	2 1/4 Gallons	250 Sq. Ft.
1 Gallon	4 1/2 Gallons	500 Sq. Ft.
2 Gallons	9 Gallons	1000 Sq. Ft.

For best results, apply Scorcher to contact and absorb into surface weeds. To prevent growth of weeds under asphalt driveways, parking areas or tennis courts and play areas, apply Scorcher to excavated areas and saturate soil BEFORE surface areas are finished.

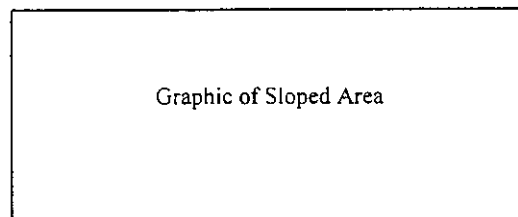

**IMPORTANT:** To avoid damage to desirable plants, apply when it is not windy. Windy conditions may cause inadvertent drifting to desirable plants. DO NOT apply over the root zones of trees and shrubs. DO NOT apply to decorative rock or bark groundcovers where the soil is covered with plastic fabric; runoff or leaching may result. In heavy clay soil locations, residual activity may exceed one year. DO NOT apply where plantings are planted.

Do not apply closer than twice the distance from the trunk to the drip line. Do not apply next to a fence if desirable plants are growing on the other side or if future plantings are planned. Vertically cut through any roots adjacent to root zone of desirable plants.

Note: Do not apply in areas shaded in red as roots of desirable plants may be present.

Do not apply on slopes as herbicide may move downhill with runoff water.

Note: Do not apply to areas shaded in red as runoff or leeching (movement through soil) can damage nearby plantings down the slope.

### Storage and Disposal

[For product packaged in containers of 1 gallon or less:]

**Storage:** Store in a cool, dry place inaccessible to children and pets. Protect from freezing. **Disposal:** Do not reuse empty container; wrap and discard in trash.

For product packaged in containers larger than 1 gallon:]

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in a cool, dry place inaccessible to children and pets. Protect from freezing. **Pesticide Disposal:** Securely wrap original container in several layers of newspaper and discard in trash. **Container Disposal:** Do not reuse container. Rinse thoroughly before discarding in trash.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans & Domestic Animals

**CAUTION:** Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

#### First Aid

**If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If on Skin:** Wash with plenty of soap and water. Get medical attention if irritation persists.

#### Environmental Hazards

This product is toxic to fish. Do not contaminate water used for irrigation or domestic purposes. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

**NOTICE:** Buyer assumes all responsibility for safety and use NOT in accordance with all label directions. Read entire label directions prior to application.
