Graphics for Each Step

1. Remove one pre-filled applicator from package and hold in an upright position.
2. Gently press cap to break the seal of the applicator.
3. Carefully remove the cap. Position the tip of the applicator on the dog's back between the shoulder blades. Apply half of the contents of the tube.
4. Invert the applicator to an upright position and move to the dog's hind quarters. Position the tip of the applicator at the base of the tail and apply the remaining contents of the tube.
5. Do not reapply product for 30 days.

Although the product [or product name] is applied only between the shoulder blades and at the base of the tail, the dog's skin and hair oils carry the product over the entire body for protection against fleas, ticks and flea eggs. Do not bathe the dog for 5 days before or 5 days after treatment. This product [or product name] is most effective when used as part of a total flea and tick management program. Use other Enforcer products registered for residential area control of these pests in conjunction with this treatment.

**Storage and Disposal**  
**Storage:** Store in a cool, dry area in a location out of reach of children and pets. **Disposal:** Do not reuse empty applicator; wrap and discard in trash.
