**1.** Remove one pre-filled applicator from package and hold in an upright position.

**2.** Open applicator by carefully cutting the top of the tube.

**3.** Position the tip of the applicator on the dog's back between the shoulder blades.

**For small dogs (under 30 lbs.):** Apply half of the contents of the tube (0.5 cc) and proceed with steps 4 and 5.

**For large dogs (over 30 lbs.):** Apply the entire contents of the tube (1 cc) and proceed with steps 4 and 5.

**4. For small dogs (under 30 lbs.):** Invert the applicator to an upright position and move to the dog's hindquarters. Position the tip of the applicator at the base of the tail and apply the remaining contents of the tube (0.5 cc).

**For large dogs (over 30 lbs.):** Open another applicator (following directions provided in steps 1 and 2 above). Position the tip of the applicator at the base of the tail and apply the entire contents of the tube (1 cc).

Although **Enforcer® Flea Drops™ Plus** is applied only between the shoulder blades and at the base of the tail, the dog's skin and hair oils carry the product over the entire body for protection against fleas, ticks and flea eggs. Do not bathe the dog for 5 days before or 5 days after treatment. This product is most effective when used as part of a total flea and tick management program. Use other Enforcer products registered for residential area control of these pests in conjunction with this treatment.
