U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:
40849-75

Date of
9/14/04

Term of Issuance:
Conditional

Name of Pesticide Product:
AntMax Bait Stations

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Enforcer Products
a division of Acuity Specialty Products Group, Inc.
PO Box 1060
Cartersville, GA 30120-1060

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 40849-75."
3. Submit studies to support the following data gaps:
guideline 830.6317 (one year storage/stability)
4. Submit two copies of the revised final printed label for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the label stamped "accepted with comments" is enclosed for your records. Also enclosed is Attachment 1 summarizing the registration components and a copy of two CRP reviews.

For Use In and Around: Apartments, and homes including but not limited to: bathrooms, kitchens, counters, corners, under and around cabinets, sinks and near plumbing fixtures.

Enforcer's unique "Clear View" design allows for easy visible inspection.

ACCEPTED
with COMMENTS
In EPA Letter Dated:
SEP | 4 2004
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
40849-75

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Remove bait stations from container.
2. For thorough ant control, use all 6 baits at one time. For larger kitchens or HEAVY INFESTATIONS, we recommend using additional bait stations.
3. Baits work best on horizontal surfaces touching corners and walls. For example, place baits next to the wall along baseboards, in corners, under sinks, in cabinets and near plumbing fixtures. Place bait stations in locations where ants have been seen.
4. Ants will begin eating the bait immediately. You will see fewer ants within days. Once the ants begin eating the bait, do not disturb the immediate area. Ants lay down a "scent trail" for other ants to follow. Disrupting this trail with cleaners or insecticides will eliminate the scent trail for the ants to follow.
5. Replace ALL baits every three months or until the ant population is completely eliminated.

For maximum effectiveness, replace baits before they are completely consumed.

NOTE: DO NOT apply aerosol insect sprays or pump sprays onto the surface areas to be treated with ant bait stations. Insecticide sprays will repel ants from feeding at bait stations locations

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry location inaccessible to children and pets.
DISPOSAL: If Empty: Do not reuse the bait station. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never placed unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

If on Skin or Clothing:	<ul style="list-style-type: none"> •Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor for treatment advice.
If in Eyes:	<ul style="list-style-type: none"> •Hold eye open and rinse slowly and gently with water for 15-20 minutes. •Remove contact lenses, if present, after the first 5

	minutes, then continue rinsing eye. •Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [You may also contact 1-800-xxx-xxxx for emergency medical treatment information.]	

[Note: First Aid statement and/or storage and disposal statement paragraph format may be used if space is limited]

If in the event of an animal-related emergency, call the national Animal Poison Control Center at 1-800-345-4735.
