	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505C) 1200 Pennsylvania Ave., NW Washington, D.C. 20460	EPA Reg. Number: 40849-79	Date of 1/10/2006
		Term of Issuance: Conditional	
		Name of Pesticide Product: Enforcer Fire Ant Bait	

NOTICE OF PESTICIDE:
☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):
**April Hawkes
Enforcer Products
Division of Acuity Specialty Product Group, Inc.
PO Box 1060
Cartersville, GA 30120-1060**

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 40849-79."
 - b. Correct typographical error in outdoor mound treatment: Sentence "Apply the bait as evenly ..." appears twice; delete second occurrence.
3. Submit studies to support the following data gaps. Each study must be submitted to the Agency within 18 months measured from the effective date of this registration.
 - one year storage stability (830.6317)
 - corrosion characteristics (830.6320)
4. Submit two copies of the revised final printed label for the record before you release the product for shipment.

If any of these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the label stamped "accepted with comments" is enclosed for your records.

Enforcer Fire Ant Bait

To Control Imported Fire Ants On Turf, Lawns & Landscapes

Treats Up To 32 [16] Mounds

Kills Fire Ants

Child Resistant Package

ACTIVE INGREDIENTS:

Abamectin B1*	0.011%*
Other Ingredients	<u>99.989%</u>
TOTAL	100.00%

*US Patent 4,310,519

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panel for additional precautionary statements and directions for use.

Net Weight: 32 oz [16 oz]

{back panel}

Kills ants including many common varieties of household ants such as Acrobat, Argentine, Bigheaded, Carpenter, Crazy, Field, Fire, Harvester, Little Black, Pavement, Pharaoh, Odorous House and Thief Ants.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

ACCEPTED
with COMMENTS
In EPA Letter Dated:
JAN 10 2006
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under EPA Reg. No.
40849-79

This product is formulated in an oil bait that functions as an attractant to Fire and Pharaoh ants. It is a stomach insecticide which acts to reduce ant workers. The bait is also passed by the workers throughout the ant colony and eventually to the queen. This product is toxic to ants; however, it is most effective against the ant queen and causes an immediate halt of egg production and disappearance of worker brood. The disappearance of worker ants leads to the decline and eventual elimination of the ant colony. Apply when ants are actively foraging. This is typically when soil temperatures are greater than 60 F (15 C). In cases where re-infestation occurs or when very large mounds remain active, re-treat as necessary.

OUTDOORS

Apply after dew or rainfall has dried for maximum effectiveness. For best results, do not apply if rainfall is anticipated within 4 to 6 hours after application.

BROADCAST APPLICATION: Apply as evenly as possible to turf and lawns at a rate of 0.4 oz of bait per 1000 square feet or 1.8 oz of bait per 5000 square feet.

INDIVIDUAL MOUND TREATMENT: Use 5 to 7 tablespoons of product per mound. Apply the bait as evenly as possible over the mound and for a distance of approximately 2 feet out from the base of the mound. Apply the bait as evenly as possible over the mound and for a distance of approximately 2 feet out from the base of the mound. Do not contaminate kitchen utensils with this product.

LIMITATIONS: Do not use in pastures, range-land or croplands.

INDOORS

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

LOCATE ANT ACTIVITY: Follow ants back to voids. Apply bait to crevices or voids where ants are active. Use up to 5 Tablespoons per treatment site in a heavily traveled area. Use less in areas with less activity or if the treatment site will not hold that much. Use a large puffer or other appropriate application device to place bait in crevices or voids. Enlarging the void's opening may be required. Repeat as necessary. Do not contaminate kitchen utensils with this product.

TO TREAT PLUMBING VOIDS WITH KNOWN ANT ACTIVITY: Obtain access to void and place up to 5 Tablespoons inside the plumbing void. Place bait where it will remain dry. Repeat as necessary. Do not contaminate kitchen utensils with this product.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Consult federal, state or local disposal authorities for approved alternative procedures.

Storage: This product may be attractant to rodents and domestic animals. Store in a cool, secure, dry place. To maintain maximum effectiveness, close container tightly after each use and use within 5 months after opening.

Disposal: Empty container or bag by using the product according to the label directions. Do not reuse.

If Empty: Place container or bag in trash and offer for recycling if available. **If Partly Filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID

If Inhaled	<ul style="list-style-type: none"> · Move person to fresh air. · If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
If on Skin or Clothing	<ul style="list-style-type: none"> · Take off contaminated clothing. · Rinse skin immediately with plenty of water for 15-20 minutes. · Call a poison control center or doctor for treatment advice.
