

Hazard To Humans and Domestic Animals

Caution: Harmful if swallowed. Wash thoroughly after handling.

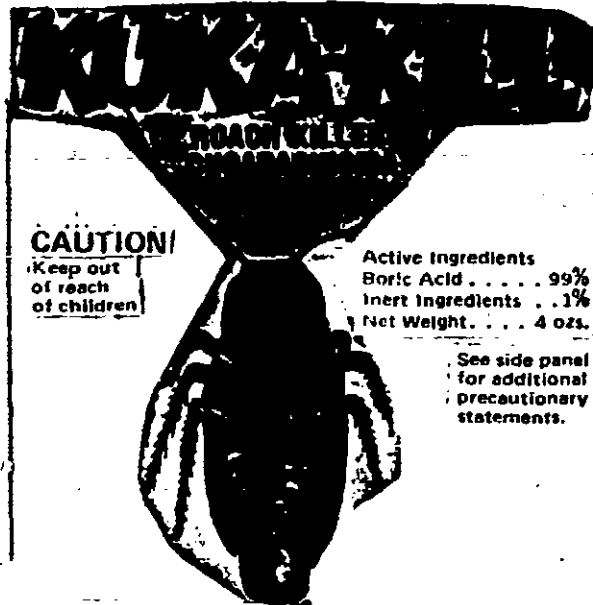

DIRECTIONS FOR USE

General Classification. It is a violation to Federal Law to use this product in a manner inconsistent with its labeling. Apply in areas only inaccessible to children. Apply (dust or sprinkle) under refrigerators, kitchen, sink, washing & drying machines, inside kitchen cabinets, closets or other areas where roaches are found. Any powder visible after application should be removed.

Kuka-Kill possesses a natural electrostatic charge which causes it to cling to vertical structures and to the body of the cockroach. It acts slowly but continuously and when properly applied will kill the roach population within 7-10 days. Reapply Kuka Kill when necessary.

DISPOSAL

Do not reuse container and put in trash can.
