

A synthetic pyrethroid for controlling the following flying and crawling insects: Houseflies, Mosquitoes, Gnats, Roaches, Ants, Earwigs, Spiders, Grain Insects (Adults of Confused Flour Beetles, Saw-Toothed Grain Beetles, Shiny Spider Beetles), Grain Mites, Sowbugs and Centipedes.

ACTIVE INGREDIENTS: \*†●resmethrin ((5-phenylmethyl)-3-furanyl) methyl 2,2-dimethyl-3-(2-methyl-1-propenyl) cyclopropanecarboxylate) ..... 0.500% w/w

INERT INGREDIENTS: ..... 99.500%  
100.000%

\*Cis/trans isomers ratio: max. 30% (±) cis and min. 70% (±) trans.

†U.S. Patent Nos. 3,465,007 and 3,542,928.

●Penick's SBP-1382<sup>®</sup> brand of resmethrin insecticide.

Penick Corp., 1050 Wall Street West, Lyndhurst, N.J. 07071.

## CAUTION: KEEP OUT OF REACH OF CHILDREN

MANUFACTURED BY

HEMLAND, INC. • TURLOCK, CA 95380

Foods should be removed or covered. All food processing surfaces should be thoroughly cleaned before using. When used in food areas, apply only when the facility is not in operation.

SPACE SPRAY: To kill flies, mosquitoes and gnats: Close all food area to be treated. Shut off air conditioner and ventilator. Seal all open vents. Remove fish and pets. Apply undiluted as a very fine mist space spray through manually operated equipment or with electrical and other powered applicators. Avoid staining by holding the spray nozzle at least five feet from objects. Direct the fine spray mist toward the upper corner of the room. Fill the room with a fine mist space spray at the rate of 3 fluid ounces per 5,000 cubic feet. Leave room closed for one-half hour. Ventilate thoroughly before re-entry. Sweep up and destroy insects.

CONTACT SPRAYS: To kill roaches, ants, earwigs, grain mites, sowbugs, spiders and centipedes: Adjust spray to produce large wetting type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets, and other harborages. Spray these infested areas until thoroughly wet. Repeat as necessary.

TO KILL SPIDERS: Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

TO KILL ANTS: Spray doors, around window frames, ant trails and hills.

TO KILL GRAIN INSECTS: Adults of confused flour beetles, saw-toothed grain beetles, shiny spider beetles: Remove infested grain cereal or flour and destroy. Avoid contamination of other food and foodstuffs in the areas by removing before spraying. Spray directly on exposed stages and into cracks and crevices where grain insects may be hiding. In homes, dispose of all infested products. The shelves and drawers should be cleaned and thoroughly sprayed so as to contact all pests and covered with shelf paper after allowing shelves to dry. Any utensils that are contacted with spray should be washed before using. Repeat as necessary.

swallowing or absorbed through skin. Avoid breathing  
vapor or spray. Avoid contact with skin and eyes. In case of  
contact, flush eyes or skin with plenty of water. Obtain  
medical attention if irritation persists.

Do not apply directly to food. In commercial food handling facilities,  
cover and remove any food and food processing equipment during ap-  
plication. Do not apply while food processing is under way. After  
spraying in meat packing plants, bakeries, and other food pro-  
cessing plants, these areas are ventilated to remove insecticide  
vapors, and the facilities and equipment are thoroughly washed with  
an acceptable detergent solution and rinsed with potable water to  
remove all traces of contamination. In the home, all food processing  
surfaces and utensils should be covered during treatment and  
thoroughly washed with an acceptable detergent and rinsed with  
water.

### STORAGE AND DISPOSAL

**PRODUCT STORAGE:** Keep away from heat. Store in  
dry area. Keep container lid closed.

**PESTICIDE DISPOSAL:** Wastes resulting from the use  
of this product may be disposed of on site or at an ap-  
proved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent).  
Then offer for recycling or reconditioning, or puncture  
and dispose of in a sanitary landfill, or by other pro-  
cedures approved by state and local authorities.
