UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND ROACIDIC ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO.

CHEMLAND

MANUFACTURED BY

CHEMLAND, INC. • MEMPHIS, TENNESSEE • TURLOCK, CALIFORNIA

ACTIVE INGREDIENTS

Sodium dichloro-s-triazinetriene dihydrate 28%
(provides 15.8% available chlorine)

INERT INGREDIENTS 72%

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID: If swallowed feed gruel or cooked cereal followed by olive oil. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact wash with water for about 15 minutes and consult a physician.

For additional precautions see side panels.

Net Contents _____

DIRECTIONS FOR

FOR EGG WASH: Dissolve 1 or 2 oz. of C-SAN 28 WASH SANITIZER in 10 gal. of warm (125°F) water. This provides 200 ppm of available chlorine respectively. For immersion treatment dip a basket of eggs in the 200 ppm available chlorine solution, hold for two or three minutes. With a conveyor type machine, spray with 100 ppm available chlorine solution.

FOR DISHES, GLASSES, FOOD PROCESSING EQUIPMENT AND UTENSILS: Dissolve 1 or 2 oz. of C-SAN 28 WASH SANITIZER per 10 gal. of warm (125°F) water. This provides 100 or 200 ppm of chlorine respectively. Clean and rinse items prior to sanitizing. Then dip the items to be sanitized in solution and hold for 2 or 3 minutes. Remove, rinse with potable water and dry. The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, and food processing equipment and utensils. Rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional C-SAN 28 WASH SANITIZER should be added to maintain a minimum concentration of 100 ppm available chlorine.

STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight or heat. In case of spill flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
