

accessible or exposed stages of:

Flies	Roaches	Spiders	Red Bugs
Fruit Flies	Ants	Wasps	Clover Mites
Mosquitoes	Crickets	Hornets	Cheese Mites
Silverfish	Gnats	Small Flying Moths	Scorpions

And these Common STORED PRODUCTS pests:

Granary Weevil	Angoumois Grain Moth
Rice Weevil	Mediterranean Flour Moth
Drugstore Beetle	Indian Meal Moth
Carpet Beetles	Tobacco Moth
Spider Beetle	Cheese Skippers
Cigarette Beetle	Saw-toothed Grain Beetle
Meal Worms	Confused Flour Beetle
Grain Mites	Rust-red Flour Beetle

Suresect XV General Purpose Spray is highly useful for insect control in Residences, Institutions, Public Buildings, Hospitals, Hotels, Restaurants, Stores, Theaters, Food Processing Plants, Bakeries, Grain Mills, Dairies, Breweries, Bottling Plants, Warehouses, Trucks and other situations where an insecticide with a high degree of effectiveness is required.

The insecticidal components piperonyl butoxide and pyrethrins are classified as food additives, and when this product is used as directed allowable tolerance levels will not be exceeded.

**ACTIVE INGREDIENTS:**

Pyrethrins	0.15%
Piperonyl Butoxide, Technical*	1.50%

**INERT INGREDIENTS:**

Petroleum Distillate	98.35%
----------------------	--------

\*Equivalent to 1.2% of (butylcarbityl) (6-propylpiperonyl) ether and to 0.3% of related compounds.

# CAUTION

## KEEP OUT OF REACH OF CHILDREN

See side panel for additional  
Precautionary statements.

### USE PRECAUTIONS

This ready-to-use insecticide may be applied as either a space spray or fog, or as a coarse wet spray to localized areas of insect infestation.

mites. As a space or vapor spray, it gives rapid kills of flying and crawling insects in cracks and crevices of floors, it is effective in the control of the grain...  
For Treatment of Floors and Bins: Suresect XV General Purpose Spray not only gives rapid initial kill of the accessible stages of most stored grain and food product pests, listed in the previous paragraph, but gives some continued protection in cracks and crevices, where insects hide. Apply in a good machine, adjusted to deliver a coarse droplet spray using approximately 1 gallon of material to each 750 square feet of surface. Repeat applications as needed.

In mills, elevators and granaries, spray floors, walls and other surfaces of bins, storage and handling area thoroughly with particular attention to cracks, crevices, and similar protected locations. Waste grain, dust, dirt and debris should be removed and destroyed, and storage areas cleaned before spraying. Treat unloading, handling and processing areas, and apply the insecticide to conveying, processing and handling equipment, the inside of reel sifter, purifier conveyors, sifters, roll housings and hoppers, pick-up conveyors, etc. Spray thoroughly around the base of heavy machinery and equipment.

For in-transit protection and control, treat truck beds, box cars and ships' holds before loading. For extended protection and control in warehouses and food products storages, treat exposed surfaces as recommended above, and spray heavily cracks, crevices, recesses, hiding and breeding areas. Thoroughly treat walls, floors, shelves and other exposed surfaces, and tightly spray each layer of cartons or containers as stacked.

As a Contact Spray: Suresect XV General Purpose Spray is also very effective when used as a contact spray against mosquitoes, gnats, wasps, hornets, skippers, scorpions and cheese mites. When these insects are present contacting them with a fine mist will provide immediate kill. Spraying walls, ceilings, lights, moldings, screen doors and door frames, beams and light cords will make these locations unfavorable as resting or hiding places for these insects.
